EQT GROUP PTY LTD
Excellent Quality Timber Supplies

About Us

EQT Group is an Australian-based forest products trading company committed to delivering Excellent Quality Timber to the Australian market.

We serve a wide range of industries through a growing selection of wood-based solutions — from structural construction and interior fit-outs to furniture, cultural and creative design, and international trade services.

Our operations span across product sourcing, branding, marketing, distribution and consulting, allowing us to respond flexibly to Australia's evolving demand for versatile, sustainable timber materials.

With a focus on sustainability, consistency, and long-term partnerships, **EQT Group** combines product excellence with a deep understanding of market needs. Our name reflects our values — Equilibrium, Quest, and Tenacity — guiding every aspect of our operations from sourcing to service.

At **EQT Group**, we don't just deliver timber. We deliver confidence, craftsmanship, and commitment to quality.

EQT GROUP PTY LTD
Excellent Quality Timber Supplies

Formply

Manufactured using a high-density overlay (HDO) of phenolic resin impregnated paper bonded to plywood with hardwood core.

Glue	A-Bond, Phenolic Resin, E0
Sheet Size	2400 × 1200mm 2440 × 1220mm 1800 × 1200mm 1830 × 1220mm
Thickness	12mm 17mm 25mm
Standard	AS 6669 AS/NZS 2269

Formply Structural

Formply is ideal for concrete formwork, bridge building, construction sites, stable linings.

Structural Rating: F14, F17

Filmface Non-Structural

Filmface Non-Structural is commonly used in decorative applications that require a hard, durable surface. Multipurpose use, shopfitting, furniture.

EQT GROUP PTY LTD
Excellent Quality Timber Supplies

Radiata Pine Plywood

Manufactured using AA, BC or CD Radiata Pine face/back veneer, hardwood core and contains an A-Bond glue line making it suitable for exterior applications.

Glue	A-Bond, Phenolic Resin, E0			
Sheet Size	2400 × 1200mm			
	2440 × 1220mm			
	1800 × 910mm			
	1830 × 915mm			
Thickness	3mm	9mm	17mm	21mm
	5mm	12mm	(18mm)	25mm
	7mm	15mm	19mm	
Standard	AS/NZS 2269			
	AS/NZS 2270			
	AS/NZS 2271			

Structural Plywood

Structural Plywood is used for building and construction purposes, packaging, hoardings.

Structural Rating: F8 (7mm, 9mm), F11 (12mm - 25mm)

Non Structural Plywood

Non Structural Plywood is used for multipurpose when a stress grading is not required. Home decoration, wall and ceiling linings, furniture, cabinets.

EQT GROUP PTY LTD
Excellent Quality Timber Supplies

Hardwood Exterior Plywood

Manufactured using hardwood species, with an A-Bond glue line. The durable surface is ideal for exterior, exposed applications.

Hardwood faces color varies subject to species, pale yellow, dark blonde, pinky red, dark red.

Glue	A-Bond, Phenolic Resin, E0		
Sheet Size	2440 × 1220mm		
Thickness	3.6mm	12mm	21mm
	6mm	15mm	25mm
	9mm	18mm	
Standard	AS/NZS 2271		

Manufactured using hardwood veneer and constructed with an A bond glue line making it suitable for exterior applications.

Especially for the structural bracing of houses, specifically wall and roof bracing.

Glue	A-Bond, Phenolic Resin, E0		
Sheet Size	2400 × 1200mm		
	2440 × 1220mm		
	2400 × 900mm		
	2440 × 900mm		
	2745 × 1200mm		
	2745 × 900mm		
Thickness	4mm		
Standard	AS/NZS 2269		
Structural Rating	F22, F27		

Hardwood Braceply

Excellent Quality Timber Supplies

Slip-Resistant Plywood

Manufactured using a mix of durable hardwood and a rugged exterior laminate, the tough wearing product ensures slip-free surfaces.

Glue	A-Bond, Phenolic Resin, E0
Sheet Size	2400 × 1200mm 2440 × 1220mm
Thickness	9mm 12mm 17mm
Standard	AS/NZS 2269

Manufactured using AA grade face and back and marine grade bond.

Excellent lightweight veneer quality is ideal for boat building, lightweight joinery, staining and painting, wall and ceiling linings.

Glue	A-Bond, Phenolic Resin, E0
Sheet Size	2400 × 1200mm 2440 × 1220mm
Thickness	6mm 15mm 9mm 18mm 12mm 25mm
Face/Back Options	Birch, Okoume, Hoop Pine
Standard	BS1088

Marine Plywood

EQT GROUP PTY LTD
Excellent Quality Timber Supplies

Melamine Plywood

Manufactured using a high quality Plywood with a melamine surface bonded to both sides.

With a clean, hardwearing surface, melamine boards are suitable for internal cabinetry, draws or shelving.

Glue	A-Bond, Phenolic Resin, E0	
Sheet Size	2400 × 1200mm 2440 × 1220mm	
Thickness	12mm 25mm 16mm 18mm	
Option	Standard (STD), High Moisture Resistant (HMR/MR)	
Standard	AS/NZS 2270 AS/NZS 2271

Our Core Values

Excellent Quality Timber — with Equilibrium, Quest, and Tenacity.

Equilibrium

We operate with composure and clarity
— striking a balance between quality, supply, and service
to foster long-term, stable partnerships.

Quest

We are always on a journey
— pursuing innovation, refining quality, and discovering
smarter, more sustainable product solutions.

Tenacity

We endure
— through every market shift and logistical challenge, we
remain committed, dependable, and driven to grow.

In the global forest products trade, success demands more than just quality goods — it calls for balance, vision, and resilience. That is precisely what EQT represents.

Excellent Quality Timber Supplies

LVL

Manufactured using multiple layers of selected veneers laminated under heat and pressure using structural adhesives. Engineered for high strength, stability and consistency.

Glue	A-Bond, Phenolic Resin, E0	
Width	70mm	200mm
	90mm	240mm
	120mm	300mm
	140mm	360mm
Length	2.4m - 6.0m (custom lengths available)	
Thickness	35mm	65mm
	42mm	
	45mm	
	63mm	
Treatment	H2, H2S	

EQT GROUP PTY LTD
Excellent Quality Timber Supplies

LVL

Structural LVL

Ideal for beams, joists, lintels, rafters, and structural framing in residential, commercial, and industrial buildings.

Standard	AS/NZS 4357
Structural Rating	F11, F17
Modulus of Elasticity (MOE)	E9, E11, E13, E15

Formwork LVL

Ideal for concrete formwork systems including beam and slab soffits, wall and column supports, and structural framing in temporary works.

Standard	AS/NZS 4357
Structural Rating	F17, F22
Modulus of Elasticity (MOE)	E13, E15

Scaffolding Plank LVL

Used as scaffold planks in construction, staging, elevated work platforms, and industrial scaffolding systems.

Standard	AS/NZS 1577
Structural Rating	F17, F22
Modulus of Elasticity (MOE)	E13, E15

EQT GROUP PTY LTD
Excellent Quality Timber Supplies

MGP10

Manufactured by machine-graded structural pine timber for framing applications, which provides a reliable balance of strength, stability, and cost-effectiveness.

Kiln-Dried

Width	70mm	190mm	360mm
	90mm	240mm	
	120mm	270mm	
	140mm	300mm	
Length	2.4m - 6.0m (custom lengths available)		
Thickness	35mm		
	45mm		
Treatment	Untreated, H2, H2S, H3		
Standard	AS/NZS 1748.1 AS1684		
Modulus of Elasticity (MOE)	E10		

EQT GROUP PTY LTD
Excellent Quality Timber Supplies

I-JOIST

Manufactured using LVL or solid pine flanges and an OSB or plywood web, which is designed for floor and roof framing, offering superior strength, stiffness, and dimensional stability.

Glue	A-Bond, Phenolic Resin, E0	
Flange Material	LVL, Solid Pine	
Web Material	OSB, Structural Plywood	
Depth	200mm	360mm
	240mm	400mm
	300mm	
Flange Size	45mm x 35mm	
	45mm x 63mm	
	45mm x 75mm	
Length	4.8m – 13.2m (custom lengths available)	
Treatment	Untreated, H2, H2S	
Standard	AS/NZS 4063, AS/NZS 1720, AS 1684	
Modulus of Elasticity (MOE)	E13, E15
