### AUGIE'S UNIQUE BEAUTY (KRUPIEN, 2007)

Display

34",Tet,4.50",Dor,ML,Frag

Augie's Unique Beauty is a 2007 registration by the late Augie Krupien. Augie was a member of our club who passed away in 2007 at the age of 91. We would have lunch together from time to time and talk mostly about daylilies. He introduced eight daylilies including Big George, Ruffled Vintage Burgundy and Late Summer Fling. A year or two before he died he gave me a couple of fans a seedling that he said was very different. He had it for 5-10 years, and he said that all scapes would show the majority of blooms as broken color; in varying degrees. Each bloom is different in appearance, looking like someone threw a can of paint at the scape creating random color breaks. He said that occasionally a solid yellow-gold bloom would appear on the same scape as the others. Augie never sold any of the plant, but did give some to a few people.

The dark lavender flower has a yellow throat is surrounded by a large violet eye surrounded by a red violet mascara band. The two-tone eye is carried around the ruffled petal edge and surrounded by yellowish knobs for a triple-color edge. Nearly all of our new butterfly intros and breeding have green hearts and throats, but here we are reminded how well yellow and purple play together. These colors combined with the heavy flower substance and edge make this cultivar stand out from the rest. It can barely be contained

## DAYLILY CATALOG

**FLUFFY CLOUDS (DELUCENAY, 2019)**

Display

14",Tet,4.50",SEv,L,Frag,Re

Peach colored with a lighter peach pink mid-rib, this Daylily has heavy golden yellow toothed edges and an orange throat. A fragrant rebloomer, this Smokey's Gardens hybrid registered in 2019 is unlike any you have seen. It evokes feelings of laying in the grass and losing yourself in the subtle movement of the clouds as they gently move across the sky. Peach with lighter peach pink midribs. Heavy golden yellow toothed edges and orange throat. Fragrant, Rebloomer

The Master has never lost a plant; whether dividing-up in August or in a clump. He has grown and survived well over this past winter in a zone 4/5 section of New Hampshire after a cold winter with no mulching or snow cover! Regarding the size factor, the phrase genetically jumped the fence is precisely what has happened; again, to ALL OF OUR good fortune. The process went from two parents approx. 7" to an offspring over 70% larger. Like a horse giving birth to an elephant! With large ruffles and the occasional angel wings, MASTER AND BOLD RULER does not hang-up and has the strength to always open no matter what's in the petals way. Pod Fertility is average to good whereas generally big flowers are the hardest to set on. Pollen is good also. There are many other attributes. MASTER & BOLD RULER is a daylily that never has a bad hair day, throws big flowers and sets a new standard for size in the Full Form category

Pete's Pattern is the culmination of all that I have tried to achieve in concentric pattern breeding. To start the base color is cream white with no beige or lavender. The large striking concentric eye pattern is lavender with a bright green throat. The fantastic petal edge is burgundy, lavender and stunning chartreuse. This is the first patterned daylily with a chartreuse edge that I have seen. Very Limited.

Luel has been somewhat hesitant to embrace the diploids (seeds are too small, foliage too thin) but she is all in on Pinewood Lily Pad. Pinewood Lily Pad is a striking daylily with a unique appearance. We received many compliments from garden visitors when they saw this flower. The bitone flowers have chartreuse sepals without any red. When combined with the huge green throat and flat form and this is a standout flower. The dark red petal tips are a great contrast to the green throat and appear dipped in ink. Our first introduction from Arno's Bow Tie, Pinewood Lily Pad is also a fine parent. Very limited
