

EXTENSION HOME CARE MAINTENANCE PLAN

WASHING & BRUSHING

1. Brush out extensions with a Wet Brush or Extension Brush before getting into the shower. This helps prevent tangles and matting.
2. Use recommended shampoo & conditioner to prolong your hair color and the extension color as well. Shampoo gently between the rows/beads/tape, no need for vigorous scrubbing. Keep conditioner away from the application site of the bead/tape/bond.
3. Use recommended leave-in spray before you brush out your hair with the Wet Brush.
4. When brushing wet hair, start from your end and work your way up to the scalp. Hold the hair in one hand (pinched in a ponytail) and brush down. Do not tug the brush through hair without holding the extension at the point of installation.
5. Before sleeping, brush the extension hair out, then place in a loose ponytail or braid.

STYLING

1. Always apply heat protectant spray.
2. Rough dry your hair 80% of the way (meaning no tugging at the extensions with a round brush or comb, just use your hand/fingers).
3. You can use a round brush and a small amount of tensions to smooth your hair and the extensions hair the last few minutes of your blow dry.
4. If curling your extensions, run the extension hair through the curling iron to smooth the hair once or twice, before placing curls. This will give your extensions a more polished look, close the cuticle, and prolong the extensions hair.

REQUIRED HAIRCARE

- Brazilian Bonder Extension Repair 3 Step System (Shampoo, Conditioner, Ionic Spray)
- Wet Brush or Tony Odisho Extension Brush
- Detangling & heat protectant sprays are strongly recommended

OTHER

- After a few washes, the extension hair will expand, and take on a more realistic hair texture
- If you notice any excess tangling or hair shedding, please contact your stylist, as these are quick fixes when addressed right away
- You can live a normal active lifestyle with extensions, just treat the extensions with some gentleness to keep them looking their best
- NEVER let sunscreen or suntan oil touch the extension hair, as they will turn peach.
- We hope you love your new extensions as much as we do! Please feel free to text the salon phone (815)729-9151 if you have any questions regarding hair extensions.
