COMMERCIAL 53CM ALUMINUM DECK LAWN MOWER WITH PEAK POWER™ LMX5300SP

Designed for heavy-duty professional use, the EGO Commercial 53cm Aluminum Deck Lawn Mower with Peak Power™ boasts a 1,600W high-performance brushless motor that delivers 17.3Nm of torque at 2500rpm, making it the most powerful walk-behind mower in its class.

Description

- Powered by industry-leading 56V ARC Lithium™ battery technology, the EGO Commercial 53cm Aluminum Deck Lawn Mower with Peak Power™ boasts a robust 1,600W high-performance brushless motor that delivers up to 17.3Nm of torque at 2500rpm, making it the most powerful walk-behind mower in its class— petrol or cordless.
- Designed for heavy-duty professional use, the self-propelled walk-behind mower features a cast aluminum deck, steel brush guard, and an IPX5 weather resistance rating for uncompromised durability.
- Its deck features dual height adjustment levers across eight positions for refined airflow and the best cut quality in all conditions.
- Dual battery ports with Peak Power™ technology combines the power of any two 56V ARC Lithium™ batteries to deliver long runtimes and efficient power draw.
- Control blade speed settings and lights with the intuitive interface mounted to the thick steel handle set.

FEATURES

- Brushless motor delivers 4,000W max power, 1,600W rated power—replacing a 230cc petrol engine
- 17.3Nm of torque at 2500rpm
- Cuts up to 135 minutes with two 56V 12.0Ah ARC Lithium™ batteries (available in KIT LMX5307SP-2)
- Cast aluminum deck for uncompromised durability
- Variable speed self-propel: 0.6 m/s – 1.8 m/s
- 8-position cutting height adjustments: 20 mm to 105 mm
- 3-in-1 function: mulching & bagging (rear side discharge sold separately ASD5300)
- Intuitive LED screen - Adjust 3 blade settings & control head lights
- IPX5 weather resistance
- Tool weight - 46kg
- Dual cut height adjustment levers to rake the deck for refined airflow and best cut quality
- 85 litre grass bag capacity
- Compatible with all 56V ARC Lithium™ batteries (available separately), recommended for use with two 56V 12.0Ah batteries for maximum performance

*Battery & Charger sold separately
