## RAPID CHARGER CH5500E

When it's time to recharge, the EGO Power+ 56V ARC Lithium battery is the quickest around, especially when coupled with our rapid charger! Achieve full charge from just 30 minutes. The 360° AIRFLOW keeps the battery cool for a faster charge time.

### Description

- From empty to fully charged in just 30 minutes.
- Our Rapid Charger can revive the battery-life for all our Professional range of lithium-ion batteries.
- The intelligent battery control system constantly monitors each cell's power and temperature to deliver the most efficient and quickest charge.
- The unique dual fan-cooled charging system works to allow the battery to start charging sooner and finish charging faster. This means that the time it takes to refuel the battery is often less than the run time you get from a full charge.
- A helpful LED charging/diagnostics indicator will let you know the charging progress, and the status of your recharge.

### FEATURES

- Industry's fastest charger

All charge times are approximate and from zero to full charge as follows:

- 2.5Ah & 4.0 Ah Battery: 30-minutes
- 5.0 Ah Battery: 40-minutes
- 7.5 Ah Battery: 60-minutes
- Fan Cooled Charging System: Prevents the battery and charger from overheating
- Integrated LED Charge Indicator Lights: To let you know if your battery has a full charge or not
- Charges all EGO Power+ Batteries

\*Battery sold separately
