COMPACT AREA LIGHT LT0300E

The EGO POWER+ Compact Area Light delivers color temperature control to fit the ambiance and functionality needs of your space, from 2700K warm light to help keeps bugs away to 5000K resembling daylight for task-oriented needs.

Description

- The EGO POWER+ Compact Area Light delivers color temperature control from 2700K to 5000K to fit the ambiance and functionality needs of your space.
- Dial in a temperature near 2700K for a warm light to help keep bugs away when relaxing or entertaining, or push it to a cooler, whiter 5000K resembling daylight for task-oriented lighting needs.
- The Compact Area Light has adjustable brightness up to 3,000 lumens and delivers up to 60 hours of runtime on low with a 56V 5.0Ah ARC Lithium™ battery (available separately).
- It can mount on a tripod, hang from its rafter hook, or rest in a variety of orientations to deliver versatile lighting configurations.
- Its IPX4-rated weather resistance allows the area light to be used in adverse weather conditions.
