## GOTECH HISTORY

Inaugurated by H.H. Sheikh Hamdan bin Rashid Al Maktoum, Deputy Ruler of Dubai, and UAE Minister of Finance, the 2<sup>nd</sup> Technology Showcase and Conference, took place in October 2018 in Dubai World Trade Center, Dubai. A huge success, reflecting the success of Dubai City as it achieved the industry objectives of dissemination of technical information updated in every segment of our Petroleum Industry. This year, we are building on last year's success and giving you GOTECH 2019, as technically stretch event to cover future progress in E&P.

GOTECH 2019 will be the biggest exhibition and conference we have had so far, and we expect even more visitors, exhibitors and companies to showcase their latest technologies, in addition to industry experts sharing their latest papers and studies, and the introduction of professional forums, where industry experts sit and talk about their latest innovative solutions and technologies. Our view is positive about the oil and gas industry as most of the companies better performed through excellence as demonstrated by GOTECH.

Over 50 companies showcased their latest technologies at GOTECH 2018, and even more papers and e-posters were presented, and we are breaking the barrier this year with more papers, more posters and more companies, which brings in more opportunities for success, R&D, innovation and more technology deployment.

## About GOTECH 2019

GOTECH 2019 will be held in Sheikh Rashid hall, from the 29<sup>th</sup> of September to the 1<sup>st</sup> of October 2019. With over 5,000m<sup>2</sup> of space for exhibition, we expect to have a much more significant footprint this year.

More than 100 companies are expected to exhibit at GOTECH 2019. In the range of 200 speakers are expected to present in the conference halls, and a brand new forum and Business club is expected at GOTECH 2019.

GOTECH 2019 is a great opportunity to network and meet industry leaders and peers to add new knowledge and opportunities, examining both the technical and the commercial potential among participants from the region and across the world.
