The Member shall pay the Corporation for service hereunder as determined by the Corporation's Tariff and upon the terms and conditions set forth therein, for which Member acknowledges receipt hereof by execution of this Agreement.

The Board of Directors shall have the authority to cancel the Membership of any Member not complying with any policy or not paying any utility fees or charges as required by the Corporation's published rates, fees and conditions of service.

Extension of pipe or pipes to transfer utility service from one property to another, to share, resell or submeter water to any other person, dwelling, business and/or property etc. is prohibited.

The Corporation shall have the right to locate a water service meter and the pipe necessary to connect the meter to the Member's property at a point to be chosen by the Corporation, and shall have access to its property and equipment located upon Member's premises at all reasonable times for any purpose connected with or in the furtherance of its

The Corporation's authorized employees shall have access to the Member's property or premises, service lines and plumbing facilities at all reasonable times for the purpose of inspection to insure compliance with State required Minimum Acceptable Operating Practices for Public Drinking Water Systems, as promulgated by the Texas Commission on Environmental Quality or successor agency, applicable plumbing codes and utility construction standards. The Corporation strictly prohibits the connection of service pipelines from its water service meter to any private well or other unknown water supply.

In the event the total water supply is insufficient to meet all the needs of the Members, or in the event there is a shortage of water, the Corporation may initiate the Emergency Ration Program as specified in the Corporations Tariff. By execution by the applicant of this agreement, Applicant hereby shall comply with the terms of said Program.

The Member shall install at his own expense any necessary service lines from the Corporation's facilities and equipment to the point of use, including any customer service isolation valves, clean-outs and other equipment as may be specified by the Corporation. The use of pipes and pipe fittings that contain more than 8.0% lead or solders and flux that contain more than 0.2% lead is prohibited for any plumbing installation or repair of any residential or non-residential facility providing water for human consumption and connected to the Corporation.

The Member shall grant to the Corporation, now or in the future, any easements of right-of-way for the purpose of installing, maintaining and operating such pipelines, meters, valves and any other such equipment which may be deemed necessary by the Corporation to extend or improve service for existing or future Members, on such forms as required by the Corporation.
