SMART FROST

Smartfrost can be applied on practically
all glass surfaces.

This is what makes it a **creative** and **innovative**
alternative to curtains and blinds.

PRODUCT COMPARISON

ADVANTAGES OF Smartfrost:

- ✓ Clear and illuminating
- ✓ Clean and modern design
- ✓ Can be customized
- ✓ Soundproof
- ✓ Durable

DISADVANTAGES of blinds, roll ups & curtains:

- Not clear and bright
- Single control
- Difficult to clean
- Easy to wear out

PRIVACY & SECURITY

POWER SAVING

INTELLIGENT SYSTEM

MULTI-CONTROL OPTIONS

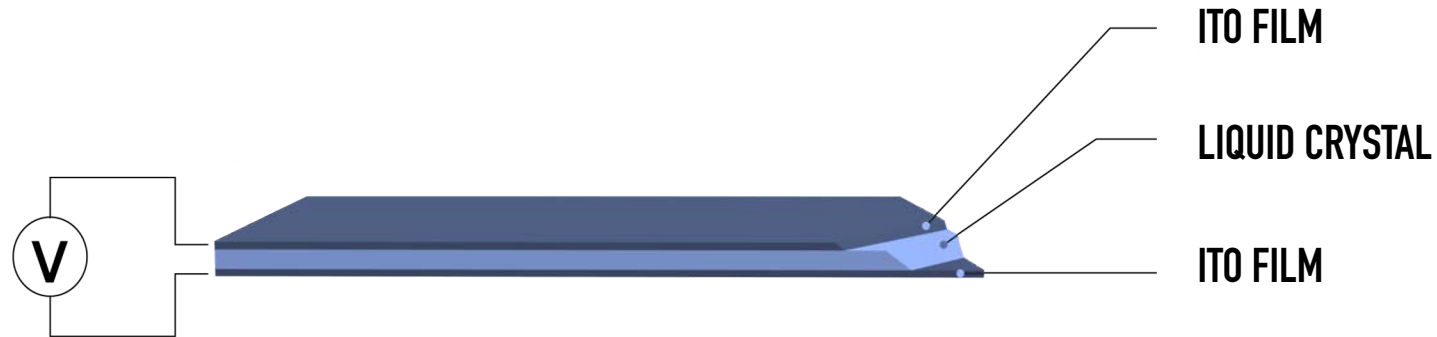

PROJECTION SURFACE

HOW DOES Smartfrost WORK:

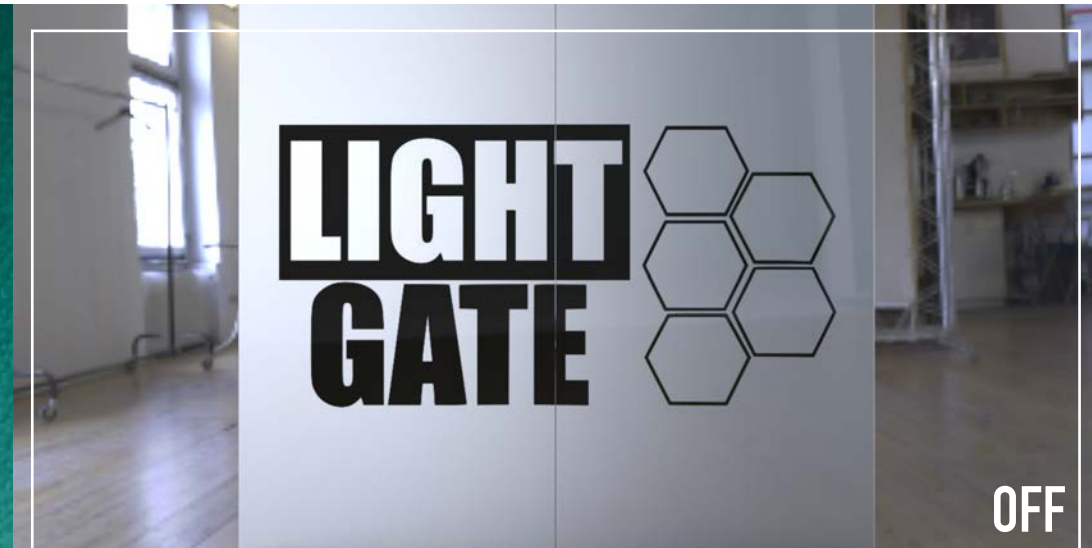

Smartfrost is an electronic intelligent dimming film consisting of:

- 2 layers of flexible transparent conductive film (**ITO Film**) and
- 1 layer of Polymer Dispersed Liquid Crystal material (**PDLC**)

By adding control power, the liquid crystal polymer can change rapidly between the two states of superpenetration (transparent) and atomization (opaque).

FULLY CUSTOMIZABLE: Include patterns, paintings and your company logo on your glass panels

QUALITY GUARANTEE

The LIGHT GATE GROUP (LGG) only distributes brands of the highest quality.

Smartfrost's manufacturers have a complete set of certifications and awards garnered from years of complying with industry standards.

- ISO Certification for Quality Management System
- SGS Certification
- Certification of National Safety Glass and Quarts Quality Supervision and Inspection Center
- Verification of Conformity
- Preferred Brand in China
- National Copyright Administration of China
- Computer Software Copyright Registration Certificate
- Member of Shenzhen Decoration Industry Association

SGS

SERVICE GUARANTEE

LGG provides its customers with a responsive **after sales team** who will address your concerns in a professional manner.

- In order to ensure your safe use and satisfaction, LGG conducts after-sales assessment.
- After receiving a report, our after-sales service team will arrange technical personnel to solve the problem immediately.
- For product quality problem under warranty period, we will provide free repair to ensure your safe use. If the product exceeds the warranty period, we will provide on site service, and charge for corresponding maintenance costs.
- LGG is not liable for product damage caused by violation of safe use or daily maintenance precautions, as well as man-made, excessive external force. These are not covered by product warranty.
