## **NEW & UNIQUE INFORMATION**

The book covers nearly 40 years of research and contains original concepts not found anywhere else.

It compares and harmonises traditional philosophic and esoteric teachings with some of the latest discoveries in Psychology and Science - the most important being the discovery of the Transcendent Planets Uranus, Neptune, and Pluto, the now accepted story of Evolution beginning with The Big Bang , the modern scientific use of Number Zero - which was not recognised in earlier history, and C.G.Jung's concept of Individuation. It also considers insights given by the trance medium Edgar Cayce - who also gave verifiable information about people he never met. This also reconciles differences when authorities on a subject disagree.

The main principle of The Cycle of Growth is that all cyclic processes, no matter how many stages we split them into, are manifestations of the same Whole. In each cycle the positive and negative forces balance one another to return to the original Zero State. When we compare the Cycle of Growth with seeming different areas of study there is remarkable correspondence.

### **ASTROLOGY AND PSYCHOLOGY**

- Ancient philosophy did not include knowledge of the psychological concepts that are available to everyone today, although it was present in symbolic form. We also recognise that , as with the Hunter Gatherer, the mental psychology was different to that of today because the Jungian Thinking Function has developed from the general public access to Reading, Writing, and Mathematics - which are also relatively new subjects.
- It is becoming recognised that our experiences in the womb affect our later life. When we compare the Astrological Logarithmic Timescale of a human lifetime from Conception to Death with The "Development of Personality" stages of Freud, Erikson, and Piaget there is exact correspondence.
- The Logarithmic Timescale also adds a "Transcendent Octave" which gives rise to evolutionary development.
- The planet Uranus clearly relates to the Jungian psychological concept of The Individuation Process.
- Now in The Age of Aquarius, we can use recent historical discoveries to understand the other Zodiac Ages.

### **THE TAROT**

- The 22 symbols of the Major Arcana match the 12 Cycle of Growth Stages in sequence.

### **NUMEROLOGY**

- Traditional philosophical systems and Numerology do not include Number Zero because it is a relatively new discovery – only becoming a number in its own right in the Computer Age.
- The sequence of Numbers corresponds with the process of Evolution – and therefore The Cycle of Growth - from The Big Bang onwards, as demonstrated by the development of all Chemical Elements from basic Hydrogen.

### **THE KABBALAH TREE OF LIFE**

- This symbolic system gets closer to the archetypal universal principles than the others and therefore associates with all other areas of study to the enrichment of them all.
- The Astrological symbol of Neptune is a basic depiction of the 3 Pillars of The Tree of Life.
- With the discovery of Number Zero, we are now able to associate Numbers Zero to 9 with the 10 Sephiroth of The Tree – which was not previously possible.
- With the discovery of the Transcendent Planets we are able to add them to The Tree of Life where there were traditionally no planetary associations.
- "The Lightning Flash" of Kabbalist involution and related Astrological planets exactly matches those of the sequence of stages in The Cycle of Growth. We can now add a transcendent function to The Tree which was not apparent before.

### **THE BIBLE**

- The Life of Jesus and the Genesis Story of Creation relate to our life in the womb and The Transcendent Octave of The Cycle of Growth.
- The Tree of Life mentioned in Genesis and Revelation (and The Kabbalah) refers to the human Chakra System of energy centres in the human body, and the related hormone-producing endocrine glands.

The original "serpent" shows an endlessly repeating cycle - without development or evolution.

\*The Ancient Greek words enclosed within the image of the 'Ouroboros' (Greek letters, ουροβόρος ὄφις meaning "tail-devouring snake") from "The Chrysopoeia of Cleopatra" ("Gold manufacture/'Gold-Making of Cleopatra, the alchemist) dating to ca. 2nd. century AD mean literally : "The one the all-seeing/ including", i.e. "One is All". ("hen to panops" in Latin transliteration; "ἐν τῷ πάνωψ" in Greek letters).

### C. G. JUNG PROCESS OF INDIVIDUATION

The Ego becomes conscious of itself  
followed by awareness of the separate Self

**POSITION AT BIRTH**  
The Ego begins as an unconscious potential contained in the Self.

The ego begins to develop.  
The Ego-Self axis is unconscious

The Ego centre emerges.  
The Ego-Self Axis becomes partially conscious.

**THEORETICAL LIMIT**  
The Ego is conscious of itself and the Self.  
The Ego-Self axis acts as a means of communication.

## THE TRANSACTIONAL ANALYSIS DEVELOPMENT MODEL

### TRANSACTIONAL ANALYSIS PSYCHOLOGICAL DEVELOPMENT MODEL

The Adult develops to process internal and external real-time data and decide on appropriate action.

**Age 10 Months**  
The Adult begins to develop as a result of personal experience

**Age 5**  
The Adult has developed further but is still "contaminated" by Parent and Child information

## BBC NEWS STORY : MOON PHASES AFFECT CRIME

### Crackdown on lunar-fuelled crime

**Extra police officers are to patrol the streets of Brighton on nights when there is a full moon.**

It follows research by the Sussex force which concluded there was a rise in violent incidents when the moon was full - and also on paydays. Inspector Andy Parr said he compared crime statistics for Brighton and Hove with lunar graphs to discover the trend. The legend that people can become violent, or even turn into wolves, can be traced back to ancient times.

**"Research carried out by us has shown a correlation"**

Sussex Police spokeswoman. But nobody has been able to explain a link between lunar cycles and human behaviour. A spokeswoman for Sussex Police said: "Research carried out by us has shown a correlation between violent incidents and full moons." More officers will be out on Brighton's streets during full moons over the summer months, she added.

**"Strange behaviour"**

Mr Parr has said he would be interested in contacting universities who may be interested in examining the link further. He told the BBC: "From my experience, over 19 years of being a police officer, undoubtedly on full moons, we do seem to get people with, sort of, stranger behaviour - more fractious, argumentative. "And I think that's something that's been borne out by police officers up and down the country for years." Past research into the phenomenon includes a study by Professor Michal Zimecki, of the Polish Academy of Sciences, who argued that a full moon could affect criminal activity and health. In 1998, a three-month psychological study of 1,200 inmates at Armley jail in Leeds discovered a rise in violent incidents during the days either side of a full moon. Meanwhile in 1994, Jack Nicholson starred in a film called *Wolf*, in which a publisher becomes infected by a creature and turns into a wolf at full moon.

# ASTROLOGY : PLANETS

## THE SOLAR SYSTEM

### THE SOLAR SYSTEM

## PLANET RULERS OF ZODIAC SIGNS AND HOUSES

## NEPTUNE

### IMAGE OF THE KABBALAH TREE OF LIFE

\* The glyph for Neptune represents the Trident of the Roman god Neptune - "Earth Shaker" and Ruler of the Collective Sea.

\* By adding the Sephiroth we can see that it is a depiction of the Kabbalah Tree of Life.

## PLUTO

\* The glyph of Pluto is a symbol of involution with the Circle of Spirit being received by the Semi-circle of Soul and transmuted into the practical reality of the Cross of Matter.

\* It is also a symbol of evolution where matter is transmuted to Spirit.  $E=Mc^2$

## URANUS

\* The glyph of Uranus (Sky) is similar to that of Mars with the Cross of Matter above the Circle of Spirit, but has the addition of two receptors.

\* Personal drive is modified by information from the super conscious - like the television aerial receiving sound and pictures.

## THE OUTER PLANETS

### SATURN

- \* The components of the glyph of Saturn are the same as those of Jupiter. Here the Cross of Matter rises above the Semi-Circle of Soul.
- \* The abstract concepts of expansive Jupiter are forced into practical use - demanding physical evidence.
- \* The principle of Saturn is Consolidation.

### JUPITER

- \* The glyph of Jupiter consists of the Semi-Circle of Soul combined with the Cross of Matter.
- \* It shows how the higher mind can create abstract concepts beyond the limitations of physical constraint. Or *Illusion*.
- \* Its principle is Expansion.

### MARS

- \* Here are two representations of Mars with the same meaning. A reversal of the passive Desire symbol of Venus.
- \* The first is an Orb - Material status is uppermost.
- \* The second is an indicator of Desire transformed into positive action to achieve its object.

## ASTROLOGY : PLANETS

---

### THE PERSONAL PLANETS

#### THE SUN

- \* The glyph of The Sun consists of two representations of the Circle of Spirit - symbol of Wholeness and Completion.
- \* The outer circle is the point at the centre made manifest.
- \* As Above, So Below.  
As Below, So above.

#### THE MOON

- \* The glyph of The Moon represents Soul as a reflection.
- \* She is a Circle like The Sun, but reflects its light in phases depending on how the shadow of The Earth falls on her surface.
- \* We can therefore see The Sun, and learn its lessons, without the risk of being blinded by its light.

#### VENUS

- \* The glyph of Venus consists of the Circle of Spirit above the Cross of Matter.
- \* She is Beauty of form and passive Peace in Action.
- \* She is Desire for whatever represents Wholeness and Completion to the individual at all levels, low to high. Inner Magnetism. The 'Missing Part'.

## MERCURY

- \* The glyph of Mercury is made up of the Circle of Spirit mediating between the receptive Semi Circle of Soul and the Cross of Matter.
- \* It is The Messenger that receives abstract Ideas and converts them into recognisable form - and converts Form into Ideas - as we are doing here.

## THE EARTH

- \* The glyph of Earth shows the Cross of Matter enclosed in the Circle of Spirit.
- \* It shows that, on Earth, there is no separation between Matter and Spirit.
- \* By observing the Seen we can also observe the Unseen.
- \* As Above, So Below.  
As Below, So Above.

CHAP. IX.

*Of the Preparation of Sol.*

Perfect Bodies need not Preparation, in relation to their further Perfection, being perfect; but that they may be more subtiliated, and attenuated, we adhibit this Preparation to them:

B Sol or Gold beaten into thin Plates, and with them and Common Salt very well prepared, make Lay upon Lay in a Vessel of Calcination, which set into a Furnace and Calcine well for three days, until the whole be subtilly Calcined; then take it out, grind it well, wash it with Vinegar, and dry it in the Sun, afterward grind it well with half its weight of cleansed Salarmoniac; then set it to be dissolved, until the whole (by the benefit of Common Salt and Armoniac) be dissolved into a most clear Water. This is the precious Ferment for the Red Elixir, and the true Body made Spiritual.

Preparation of Sol (Gold)

**4. RECTIFICANDO**  
The ore powder mixed with  
Mercury. The waste is a brown  
colour. The gold is beginning to  
amalgamate with the mercury.

**5. INVENIES (Find)**  
A bead of amalgam is transferred  
to the storage vessel.

**WORK IN PROGRESS**  
Waste is washed away.  
The mixture is hand rubbed to aid  
the chemical reaction.  
More amalgam is stored.

**6. OCCULTUM (Hidden)**  
Filtration.  
The amalgam is squeezed in a  
cloth to remove excess mercury.

**FILTRATION CONTINUES**  
The cloth is twisted tighter.

**PREPARATION FOR MELTING**  
The cloth containing the  
amalgam is placed in a crucible.

**SUBLIMATION**  
Mercury is evaporated away or  
Borax is melted.

**7. LAPIDEM (Stone)**  
Heating is continued to melt the  
gold.

**A STONE**  
The final product is a bead of  
gold.
