

The process for travel in the EU follows in chronological order:

- 1 Microchip dated in the vet book
- 2 Rabies vaccination (this can be the same date as above) the pet must be 12 week old to have the vaccine
- 3 The pet must 14 weeks old to travel
- 4 EU pet passport
- 4 21 days post rabies travel is allowed

Please note: In 2021 things will change for exit and entry to the UK, to what extent we have not been informed. Please see the link below for more information
