

# <~SmartWash>

Coming June 2024

**Don't let a grimy Turbine slow you down!**  
**From Install to Continuous Monitoring, SmartWash will have your turbines running at maximum load with minimal hands-on service.**

Periodic Water Washes are a necessary evil for the Turbine Industry, but with SmartWash from SISO it can be as simple as pushing a button.

SISO Experts are proficient in both the hardware and software for water wash, and offer a fully automated system, from design, I&C, testing and continuous monitoring.

## REDUCE MAINTENANCE COSTS

Minimal operating and supervision needed

## MORE EFFICIENT WASH

Conductivity meter used to complete the rinse  
Heater used to make wash more effective

## INCREASE REVENUE

Wash more often and more effectively

## CONSISTENT MAINTENANCE

Automated sequences ensure washes are performed the same each time

### Hardware Included:

- Tanks
- Valves
- Heaters
- Pumps
- Temperature Sensors
- Pressure Sensors, etc.

### Continuous Monitoring:

- Compressor Performance Alerts
- SmartWash Effectiveness

2-year Snapshot subscription included with each SmartWash subscription
