RE: Project HABIT

To Whom It May Concern:

I am writing to express my support for the nonprofit organization, Project HABIT. Project HABIT is dedicated to help those seeking recovery from drug or alcohol addiction and providing adequate funding, support and advocacy for patients throughout the community.

Accessible and affordable care is beneficial for those seeking recovery and treatment. By helping people reintegrate into their respective communities, it allows them to maximize the resources and amenities the agency provides.

I am appreciative that Project HABIT breaks down the cost barrier by providing financial support for patients at all levels of care. Every dollar invested in addiction treatment regarding healthcare yields a total savings ratio exceeding costs by 12:1. This will result in fewer drug-related incidents, overdoses, accidents, and deaths. Those suffering from drug and alcohol addiction are in our communities: our neighbors, friends, and family members. Therefore, we must do our best to provide them with the best care and resources available. Thus, I express my full support for Project HABIT and their ongoing services.

Sincerely,

A handwritten signature in blue ink that reads "Kenny Yuko".
