Tessie Watts is a Transformational Leadership Coach and Speaker who believes in the power of “Whole Vision” Leadership. Since 2011, she has been on a divine journey to elevate the quality of Leadership by Co-Powering Leaders to remove every restraint that comes against their Leadership and Business Potential.

As the CEO and Principal Leadership Coach of The Leadership Haven Resource Center, LLC, Tessie has been committed to turning leaders into the positive “Change Agents” they are called to be. She does this through her Executive Coaching Program, and her power-packed leadership and business development workshops. She is also the visionary behind the “REIGNITE FLORIDA” Leadership Summit that brings hundreds of leaders together annually, under one roof, for a full day of Leadership and Business Development.

Tessie has a master’s degree in Organizational Leadership. Coupled with multiple years of training, public speaking, moderator, and coaching experience, her specialism is a “Co-Powerment” platform that leaves her clients and audiences with “Strategically Strong” habits to GROW and LEAD by.

Tessie’s personal mantra is “There’s no need for human co-signers on what was divinely given”. She is thankful for every opportunity to CO-POWER others and to share her message on how fulfilling life can be when you are intentional at “Leading on Purpose”.

The Leadership Haven is here to support you on your Leadership journey. Visit our website at <https://theleadershiphaven.com/> to learn about all our services.
