

GOVERNOR BRYAN ANNOUNCED 3RD WALL STREET FINANCIAL DISTRICT HUB INITIATIVE. 3RD WALL STREET ANNOUNCES STRATEGIC ALLIANCE WITH PUBLIC COMPANY FOR ST. CROIX ECONOMIC REVITALIZATION

SEDI-CASE, Global Asset Management Group (GAMG), Alexander Hamilton Opportunity Zone Fund, and TriFactor Capital Markets Network Deploy Cross-Border Public Capital Marketplace

ST. CROIX, USVI — October 20, 2026 — Following the definitive executive announcement by United States Virgin Islands Governor Albert Bryan Jr. on September 30, 2026 regarding the launch of the 3rd Wall Street Financial District Hub Initiative, an institutional strategic collaboration has been finalized to implement a powerful public capital marketplace for real estate acquisitions, community infrastructure economic revitalization, restoration, and regional development across the Territory.

According to statement benchmarks explicitly confirmed by **Anthony Weeks**, Special Economic Envoy and SEDI-CASE Managing Director, this paradigm-shifting initiative directly bridges localized Caribbean property development goals with premier international financial pipelines. *"By establishing this infrastructure, we are successfully connecting the immense liquidity nodes of New York Wall Street and Wall Street South Florida with the tremendous opportunity landscape of St. Croix, creating a highly structured cross-border ecosystem for commerce, trade, and financial onshoring,"* stated Envoy Weeks.

The integrated network aligns the public capitalization architecture of Global Asset Management Group Inc. (OTCBQB: GAMG) and the targeted tax-sheltered investment tracks of the Alexander Hamilton Opportunity Zone Fund. Together with the clearing technology of the TriFactor Capital Markets Network, this coalition will establish the USVI very first public capital markets vehicle capable of driving long-term capital into community infrastructure restoration and Class-A commercial assets, centered on the physical execution of the St.

Croix 3rd Wall Street Hub. This new public capital marketplace will also enable private local companies to go public if they elected to do so.

Capital deployed through Qualified Opportunity Zone structures may be eligible for certain tax advantages under applicable federal law. The availability and extent of any such benefits depend upon individual investor circumstances, applicable regulations, investment structure, and continued compliance with legal requirements. Prospective investors should consult their own legal, tax, and financial advisors regarding any potential tax consequences. Onboarding procedures are functioning under SEC Rule 255 'Testing the Waters' rules, allowing participants to register priority allocations via non-binding indications of interest.

Alliance Component	Sourcing & Clearing Architecture	Primary Focus & Asset Target
Government Hub Mandate	Official Executive Designation, Christiansted Corridor	Regional financial center, trade integration, technology onshoring.

SEDI-CASE Platform	Directed by Envoy Anthony Weeks (www.sedivision.org)	Territorial trade, regional supply chains, economic revitalization.
GAMG Corporate Hub	Public market tracking via OTCQB marketplace	Multi-tier public corporate capitalization frameworks.
Alexander Hamilton QOZF	Qualified Opportunity Zone Fund tax architecture	10-year tax-exempt real estate appreciation & structural restorations.
TriFactor Network	Cross-border liquidity nodes & transaction clearing	Automated real estate marketplace bridging NY and South FL capital.
