

AMERICANS FOR FREE ★ TRADE

December 11, 2019

The Honorable Donald J. Trump
President of the United States of America
The White House
1600 Pennsylvania Avenue, N.W.
Washington, D.C. 20001

Dear Mr. President:

On behalf of Americans for Free Trade, we urge you to reach a Phase One deal with China and take the necessary steps to resolve the ongoing trade dispute. We certainly hope that this will lead to further negotiations, which ultimately lead to a final deal that not only addresses our key concerns with the U.S.-China trade relationship, but also eliminates the current tariffs imposed on *both* goods sourced from China and our goods exported to the critically important China market

As these negotiations continue, we strongly encourage the Administration to suspend implementation of the Tranche 4B tariffs set to take effect on December 15th if a Phase One deal is not finalized before then. We think it is incredibly important for the ongoing negotiations to be allowed to continue without the specter of new tariffs taking effect before a deal is signed. As you noted when the Tranche 4B tariffs were announced, you delayed implementation of those tariffs specifically to avoid harming American consumers over the holidays. This delay should be extended until a deal is reached.

Further, we strongly support using the Phase One deal to include reciprocal elimination of existing tariffs, as has been reported in the press. Such an action would send an important economic signal while providing immediate relief to job creators throughout the U.S.

Our coalition represents every part of the U.S. economy including manufacturers, farmers and agribusinesses, forest products, retailers, technology companies, service suppliers, natural gas and oil companies, importers, exporters, and other supply chain stakeholders, among them small and family-owned businesses from across the nation. Collectively, we support tens of millions of American jobs through our supply chains. We are united in our concern about the negative impacts that indiscriminate tariffs will continue to have on U.S. businesses, workers and consumers.

As our coalition has made clear since the trade war began, tariffs are taxes that American businesses and consumers pay. To date, Americans have paid over \$42 billion in taxes due to the imposition of tariffs. These taxes and the uncertainty have created – and continue to create – layoffs, deferred investments, and price increases in every corner of the country. Indeed, according to research by Trade Partnership Worldwide LLC, the Section 301 tariffs on goods on

Lists 1-3, along with the ongoing Section 232 tariffs on steel and aluminum and retaliation, have cost the average American family of four nearly \$800 this year and have shaved 0.4 percent off of otherwise robust GDP. Additional tariffs on products on List 4a (not included in this estimate), amplify the negative impacts; if additional tariffs on all of the products on List 4 are applied, the negative impacts to American families will grow to over \$2,300, and the hit to U.S. GDP will be a negative 1 percent.

We have previously provided our thoughts on key issues that need to be included in a final deal. A final agreement resolving this dispute must: 1) address China's unfair trading practices; 2) fully and immediately eliminate all remaining Section 301 tariffs and retaliation that are not already eliminated in the Phase One deal once a final deal is signed; 3) avoid establishing any new enforcement mechanism that would trigger future tariffs and result in long-term economic uncertainty; 4) provide clarity on how the Section 301 exclusion process will be impacted by a U.S.-China final agreement; and 5) trigger a full economic assessment, by the Administration, of the costs of tariffs for American businesses, workers, and consumers.

We want the U.S. to reach a trade deal with China that achieves meaningful change in our trading relationship with China and provides business certainty for the future. We continue to believe that tariffs are the wrong approach, and we believe these tariffs are causing escalating economic harm to American businesses, workers, farmers and families across the country. We urge you to delay the Tranche 4B tariffs to allow for a final Phase One deal to be achieved.

Sincerely,
