(SEAL)

ARGUMENT IN FAVOR OF PARK BOND PROPOSITION.

Green and shaded open spaces, which are so characteristic of our city are rapidly giving way to new homes, businesses and industry. Our population has increased by 68.4% since 1960, a greater increase than any other community in the county. The city has managed to keep pace with this growth by expanding its sewer, water, street and storm drainage facilities. Our parks and recreational needs are no less important.

Today the citizens of Escondido have an opportunity to secure for themselves and for generations to follow a spacious community park. The park site is being offered to us by the City of San Diego at a fair price - slightly more than \$3,000 per acre. The proposed park would join an existing 30 acres of park land which will give the city an area of 234 acres for recreational development. A park of this size can offer many varied recreational activities for all age groups. It will also preserve a large open space at the southern gateway of our city, as an attraction to visitors and as a landmark of our city. The proposition we urge you to approve will enable the city to purchase the park site and to serve it with water and sewer facilities. Once acquired the city can plan for its orderly development with deliberation.

While this park is only part of the total recreational plans of the city it is a major addition, and one which will make Escondido a better place to live.
