BONSS[®] Minimally Invasive Spine UBE Surgery - Telescope

- Specification: Ø4mm*175mm
- Direction of View: 0°
- SD&Wide Angle HD&Wide Angle

UBE Telescope Sheath

The single valve-inlet valve can rotate 360°freely;
High flux outflow maintains intraoperative inlet water pressure
reducing intraoperative bleeding;
Ensure continual irrigation to maintain a clear field of view;
Avoid eddy under endoscopy;

Obturator

- Specification: Ø4mm*175mm
- Direction of View: 30°
- SD&Wide Angle HD&Wide Angle

CONNECTION WITH
ILLUMINATION FIBER

Suitable for various optical cables

Patent Innovative Design for UBE, Single Valve Design
The inlet valve can rotate 360°with high flux outflow
