

## ALC'S FALL 2020-2021 REGISTRATION IS NOW OPEN!

**We offer remote and in-person options**

**2020 - 2021 Fall registration is NOW OPEN**

**How do I register with a specific tutor?:** My tutors' schedules cannot be finalized because they are still waiting on their school schedules. For now, please write your tutor request at the top of your form.

**Will you be offering morning time slots?:** As of now, our hours of operation are still in the afternoon because the majority of tutors are classroom teachers who will most likely still be required to work a full day. However, I will notify families if that changes.

**I don't know what my fall schedule will be like, how do I reserve times?:** It's not necessary to be specific with times. Simply circle your preferred days and we can finalize exact times as we all have more information.

**If you unable to continue with in-person instruction, will you offer refunds?:** If we are ever in a situation where we need to close, we will transition to online tutoring just as we did in March. For those who opt out of online tutoring, sessions will not be refunded, but families will have 3 years to utilize the hours, which can also be transferred to a sibling.

*For those of you who have been with us during the fall know it's one of our busiest times of year. We will always do our best to accommodate, but typically by mid-September we will have limited availability until the start of the new year. Our current families are receiving this email first, please take advantage.*
