Pre-made Bottles Agreement

Child's Name: _____ DOB ____/____/____

The following procedures must be followed when providing pre-made bottles of infant formula:

1. Bottles and nipples must be sterilized before use.
2. Nipples must be covered.
3. Bottles must be labeled with the child's name and the time and date of preparation.
4. Bottles must be transported to center in a clean, insulated container that keeps the formula at 41°F or below.
5. Parents shall take all used and unused bottles home at the end of each day.
6. Parents will provide one unopened can of ready-to-feed formula to the center or authorize the use of center formula should child need more bottles than provided for the day.
