Limits of Liability	NADA value at time of claim
Vehicle Mileage Eligibility	175,000 miles on odometer at time of sale
Vehicle Age Eligibility	15 model years
Terms	24, 36 and 48 months

TIRE & WHEEL

Tire & Wheel Protection covers the repair or replacement of tires and wheels damaged by road hazards. If a tire is punctured or otherwise damaged beyond repair, reimbursement is provided for a replacement of like kind and quality, with coverage valid through the tire's tread life (excluding wear beyond 3/32"). Wheels that become unserviceable due to road hazards are also covered, with repairs provided when possible or a remanufactured replacement if necessary. The plan includes reimbursement for mounting, balancing, valve stems, and tire disposal for covered replacements. Additionally, cosmetic wheel repair covers minor curb rash or flaking paint using manufacturer-approved techniques, with replacement covered up to \$600 if the damage cannot be repaired.

KEY/REMOTE

Key/Remote Protection offers up to \$800 per year for the replacement of lost, stolen, or inoperable keys and remotes, helping customers avoid the high cost of modern key fob technology. The program directs customers to the originating dealer first if they are within a 25-mile radius, creating an opportunity for additional service revenue. If the dealer cannot provide a replacement, prior approval is required before using another franchised dealer, ensuring replacements stay within authorized networks. For security and fraud prevention, all lost, stolen, or destroyed keys and remotes must be reprogrammed before replacement.

PAINTLESS DENT

Paintless Dent Repair (PDR) is a manufacturer-approved repair method that removes minor dents and creases (up to 2") without impacting the vehicle's original paint. This coverage provides a cost-effective solution for maintaining a vehicle's appearance, increasing customer satisfaction, and protecting resale value. Repairs are covered for all exterior painted sheet metal panels, as long as they can be fixed using standard PDR techniques. However, this service does not cover damage requiring body panel replacement, sanding, bonding, or repainting. Since no traditional bodywork is involved, PDR keeps vehicles looking new while eliminating the expense and downtime of conventional repairs.

(See contract for full listing of all covered parts)
