THE UNIVERSITY OF CHICAGO
DIVISION OF THE PHYSICAL SCIENCES
DEPARTMENT OF CHEMISTRY

REPORT OF THE COMMITTEE ON THE ORGANIZATION OF THE DEPARTMENT OF CHEMISTRY

FOR THE YEAR 1960-1961

PRESENTED TO THE BOARD OF THE DIVISION OF THE PHYSICAL SCIENCES

AND THE BOARD OF THE DIVISION OF THE SOCIAL SCIENCES

AND THE BOARD OF THE DIVISION OF THE BIOLOGICAL SCIENCES

IN THE YEAR 1960-1961

The Department of Chemistry at the University of Chicago has a long and distinguished history of research and teaching. It has been one of the leading centers of chemical research in the United States and has produced many of the world's leading chemists. The Department is currently organized into several divisions and is supported by a large staff of faculty and administrative personnel.

The Committee on the Organization of the Department of Chemistry was formed in 1959 to study the Department's organization and to make recommendations for its improvement. The Committee has held several public hearings and has received many suggestions from faculty and students. The Committee's report is presented here.

The Committee believes that the Department should continue to be organized into several divisions, each with a strong research focus. The divisions should be organized in a way that allows for the most effective use of the Department's resources and the most efficient teaching of the students.

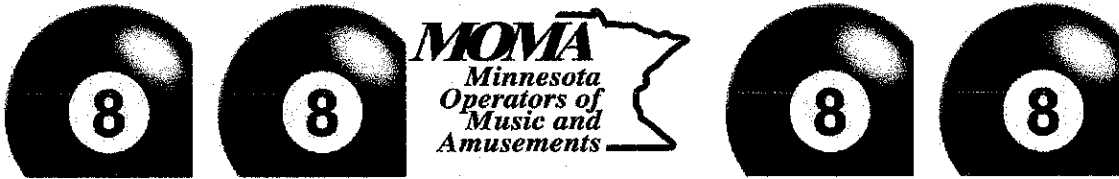

The Committee also believes that the Department should continue to be supported by a large staff of faculty and administrative personnel. The Department should continue to attract the best faculty and administrative personnel and should provide them with the best possible working conditions.

The Committee believes that the Department should continue to be one of the leading centers of chemical research in the United States and should continue to produce many of the world's leading chemists. 1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that proper record-keeping is essential for the integrity of the financial system and for the ability to detect and prevent fraud.

2. The second part of the document outlines the various methods used to collect and analyze data. It describes the use of statistical techniques to identify trends and patterns in the data, and the importance of using reliable sources of information.

3. The third part of the document discusses the role of the auditor in the process. It explains that the auditor's primary responsibility is to provide an independent and objective assessment of the financial statements, and to ensure that they are prepared in accordance with the applicable accounting standards.

4. The fourth part of the document describes the various types of audits that can be performed. It includes a discussion of the differences between internal and external audits, and the specific procedures used in each type of audit.

5. The fifth part of the document discusses the importance of communication in the audit process. It explains that the auditor must maintain open and effective communication with the client throughout the audit, and must be able to clearly and concisely communicate the results of the audit.

6. The sixth part of the document discusses the various factors that can affect the quality of an audit. It includes a discussion of the importance of the auditor's independence, the quality of the audit team, and the quality of the client's internal controls.

7. The seventh part of the document discusses the various risks associated with auditing. It includes a discussion of the risk of audit failure, the risk of litigation, and the risk of reputational damage.

8. The eighth part of the document discusses the various ways in which the audit process can be improved. It includes a discussion of the importance of ongoing education and training for auditors, and the importance of using technology to improve the efficiency and effectiveness of the audit process.
