# DURÁVEL\* Products for Professionals

Durável TRO is a heavy-duty traffic-rated cement overlay system engineered to restore texture to worn concrete and to repair spalls and salt damage. The nearly invisible fiber reinforcement significantly increases flexural strength and tensile strength. Durável TRO will handle all residential and commercial traffic, including forklifts. Durável TRO is installed on parking lots, parking decks, loading docks, driveways, sidewalks, commercial entrances, and other horizontal surfaces. Finish options include smooth trowel, broom texture, and a range of decorative textures. Unlike most other repair overlay products, Durável TRO provides an extended service life and applying a sealer is optional. Durável TRO is available in Light Gray, Dark Gray, and White, and can be field tinted to over twenty decorative colors. Durável packages overlay and repair mortars in weather-resistant plastic bags to extend product shelf life. Please help take care of the environment and take our empty bags to a recycling center!

#### **SYSTEM ADVANTAGES**

- Fiber-Reinforced Strength
- Extreme Abrasion Resistance
- Permanent Concrete Repair
- Resists Freeze-Thaw Cycling
- Just Add Water, Self Bonding

#### **PRODUCT FEATURES**

- Repair Driveways, Parking Lots, and Decks
- Warehouse Floors, Docks, and Ramps
- Restore Broom Texture to Sidewalks and Entryways
- Fix Damaged Stairways and Steps
- Sealer Not Required

#### CONCRETE REPAIR

Many ice-melt products damage the top surface of concrete resulting in spalls and trip hazards. After years of heavy traffic concrete can become worn and slippery. Heavy impacts can crack the top surface of concrete. Use Durável TRO to permanently repair concrete without the downtime and expense of tearing out the entire slab.

#### RESIDENTIAL

Durável TRO will repair damaged driveways and provide an even color from curb to garage. Resurfacing with Durável TRO avoids damage caused by tearing out and replacing a driveway or sidewalk. Established landscape, grass, lighting, invisible fences, irrigation systems, and adjacent surfaces can be protected easily.

#### COMMERCIAL

Engineered for a premium blend of fiber-reinforced strengths and abrasion resistance. Durável TRO is strong enough to handle forklifts and other heavy traffic. Eliminate trip-fall hazards on sidewalks and entryways. Fill worn concrete to restore smooth concrete floors in warehouses and stockrooms.

Durável TSO is a heavy-duty decorative texture cement overlay system which is designed to beautify old and new concrete. Using the latest single component technologies, Durável TSO has been engineered to lead the industry in strengths, durability, adhesion, and ease of use. Durável TSO can be applied using conventional concrete tools to create multiple textures and finishes. Add Overlay Color Packs to integral pigment Durável TSO in a range of designer colors. Texture options include spray textures such as knockdown and stencil finishes. Unique and extraordinary surfaces can also be created to replicate natural stone, slate, or even wood surface with the addition of In-Fluence stain colors and select Durável sealer. Durável TSO will handle all residential and commercial traffic, including light vehicular traffic. Warm and cool weather formulations keep you working year round. Durável packages overlay and repair mortars in weather-resistant plastic bags to extend product shelf life. Please help take care of the environment and take our empty bags to a recycling center!

#### **TEXTURE OPTIONS**

V	Knockdown	Texture
---	-----------	---------

- Stencil and Grout Designs
- Multicolor Spray Texture
- M Bubble Finish
- Slate Texture and Wood Finish

#### **TYPICAL USES**

- Sidewalks and Driveways
- Non-Slip Pool Deck Coatings
- Porches, Balconies and Patios
- ✓ Outdoor Dining Patios
- Commercial Entrances and Walkways

#### **CUSTOM TEXTURES**

Using standard concrete tools, choose to create a surface that is tried and true, or one that is unique and personalized. Durável TSO is friendly enough to be used by a new craftsman or a seasoned veteran with an eye for creating a spectacular surface.

#### RESIDENTIAL

Customers want new and safe surfaces to enhance their concrete from the curb to the back yard, and everywhere in between. Durável TSO is a versatile coating that can create a low slip surface for the driveway or around the pool. If boring concrete is under your feet, create a new look for any concrete surface.

#### COMMERCIAL

Concrete in commercial spaces often looks boring, damaged, or just worn out. Durável TSO will provide a long lasting, easy to maintain, beautiful surface that will give the property the facelift it deserves. The new overlay will enhance the overall appearance while providing a slip resistant beautiful surface with long service life.

## Durável TCO™

#### PRODUCT INFORMATION

Durável TCO is an extremely flexible Micro-Topping overlay that can be used for interior and exterior applications on horizontal and vertical surfaces. This is where imagination and functionality meet. Durável TCO can be used to create a fresh flat surface or unique texture on old tired and worn concrete. This new canvas can be colored integrally using Overlay Color Packs as a great basis for design. With some imagination, creativity, and In-Fluence stains, an extremely durable new and beautiful surface comes to life. Durável TCO has been engineered to lead the industry in compressive strength, durability, adhesion, and ease of use. Durável TCO is a self-bonding add water only white or gray thin concrete overlay. Durável packages overlay and repair mortars in weather-resistant plastic bags to extend product shelf life. Please help take care of the environment and take our empty bags to a recycling center!

#### **TEXTURE OPTIONS**

- Smooth Finishes
- Stencil and Grout Designs
- Wood Look Concrete
- Slate Finishes
- Vertical Venetian Look

#### **TYPICAL USES**

- ✓ Commercial Flooring
- Restaurants and Showrooms
- Residential Flooring Inside and Out
- Wall Finishes
- Creative Stencil Designs

#### **CUSTOM TEXTURES**

The versatility of Durável TCO lends to its use for unique and custom design options. TCO can be manipulated from super thin to a unique slip resistant texture that can be colored in the mix, and then treated with In-Fluence translucent concrete stains to bring concrete to life. "That's Concrete!?" will be the question asked often.

#### RESIDENTIAL

Inside or outside Durável TCO will exceed your expectations. Durável TCO will find its home in basements, living spaces, kitchens, patios, on walls, and many more surfaces around the home. Using a combination of integral concrete colors and stains, natural surfaces can be replicated but have the durability and resistance of concrete.

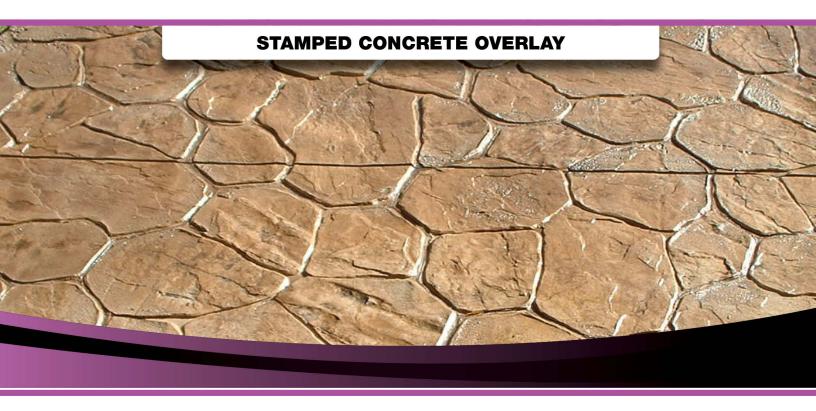

#### COMMERCIAL

Durável TCO creates a lasting impression. Concrete often looks boring, damaged, or just worn out. Durável TCO provides a long lasting, easy to maintain, beautiful surface that gives the property the facelift it deserves. Durável TCO will enhance the overall appearance, while providing a slip resistant surface with long service life.

Durável SOM is a polymer modified cement coating that is easy to use when creating beautiful stamped concrete surfaces over existing plain concrete. Durável SOM can be added to any sound, non-moving and clean concrete with minimal height gain. Common hand tools are used to create natural-looking surfaces like stone, slate, brick, cobblestone, and wood, using stamp texture tools designed to work with an overlay. Add Durável OCP overlay color packs and In-Fluence water based stains to create natural looks. Durável SOM may be installed on indoor and exterior projects, and is suitable for freeze-thaw climates. Durável SOM is engineered to handle commercial vehicular traffic and is perfect for both commercial and residential projects. Durável packages overlay and repair mortars in weather-resistant plastic bags to extend product shelf life. Please help take care of the environment and take our empty bags to a recycling center!

#### **SYSTEM ADVANTAGES**

- Wide Range of Color Combinations
- Freeze-Thaw Resistant
- Premium Blend of Strengths
- Suitable for Vehicle Traffic
- Stamp and Carve Options

#### **TYPICAL USES**

- Tentrances and Walkways
- Porches, Balconies, Patios
- Sidewalks and Driveways
- Commercial and Residential
- Outdoor Entertaining Areas

#### **CUSTOM TEXTURES**

Use common concrete stamps and skins to create beautiful textures like stone, brick, slate, and wood. Durável SOM can be carved into any pattern and size to meet the project requirements. Select from a nearly limitless combination of colors to complement any design.

#### RESIDENTIAL

Transform boring, plain concrete patios, walkways, and driveways into fabulous natural colors and textures. Overlaying existing concrete with Durável SOM avoids the extensive cost of tearing out your existing concrete. Projects can be completed without damaging your surrounding landscape.

#### COMMERCIAL

Increase the value of nearly any property by adding decorative stamped concrete. Using Durável SOM on existing concrete saves time, mess, and cost typically associated with tear-out and replacement. Use stamped concrete overlay to designate pedestrian zones. Durável SOM is engineered to handle heavy vehicular traffic on entryways and crosswalks.

## **Standard Color Chart**

#### SOLID COLOR ACRYLIC SEALERS | OVERLAY COLOR PACKS

NOTE: All colors shown are intended to show the approximate color of finish, choices, and ranges. DO NOT use this chart as a final selection.

Final colors are affected by site conditions and installation processes as well as the tone of the concrete.

Durável recommends making final selections from job specific samples made in the field.

#### **SEMI-TRANSPARENT CONCRETE STAIN**

#### VIBRANT COLORS WITH ENHANCED WATER-BASED TECHNOLOGY

Durável water based semi-transparent stains In-Fluence the color of natural concrete and cement-based overlay systems to create beautiful one of a kind surfaces. In-Fluence stains are enhanced with a revolutionary bonding agent to increase the durability of the color prior to application of the topcoat. In-Fluence contains no acrylics; most other concrete stains include acrylics which can inhibit the topcoat bond to the substrate. In-Fluence stains can be mixed together or applied in multiple layers that enhance the beauty of concrete, or to replicate materials like stone, slate, wood and many other natural surfaces! In-Fluence color formulas have been blended to create mottled surfaces even when using a single color for application. Available in both concentrate and ready-to-use formulas.

#### STAIN ATTRIBUTES

- Strong and Vibrant Colors that can be Sprayed, Brushed, or Sponged in Layers or Blended Together
- Enhanced Bonding Agent to Assist Color Retention Prior to Topcoat
- M Blend of Water-Based Colors Used on Flat or Textured Surfaces to Create a Unique Mottled Finish
- 24 Essential Colors to Beautify Natural Concrete or Create the Appearance of Stone, Slate, Wood and More

## IN-FLUENCE

## STANDARD COLOR CHART

NOTE: All colors shown are intended to show the approximate color of finish, choices, and ranges. DO NOT use this chart as a final selection. Final colors are affected by site conditions and installation processes as well as the tone of the concrete. Durável recommends making final selections from job specific samples made in the field.

Colour Seal pigmented sealers use Durável's Insta-Tint system to create over 1200 standard colors in a high hide, easy flow, and extremely durable sealer. Durável has incorporated industry leading components into all our pigmented sealers for superior results when coating standard or decorative concrete surfaces. Sealers are available in both solvent or low-VOC water based formulations to meet the requirements of your project. Colour Seal uses proven UV-stable and alkaliresistant pigments to create long lasting color fast coatings. D-Grip™ anti-slip additives are available when additional traction is required. Quality projects deserve quality sealers. Use Colour Seal to protect pool decks, concrete driveways, walkways, patios, porches, balconies, and other commercial and residential surfaces from common stains and constant wear and tear.

#### **TYPICAL USE**

- Residential and Commercial Concrete
- Discolored or Stained Concrete
- Concrete Texture Overlay
- New Work and Existing Concrete Re-Seal
- ▼ Walls and Other Vertical Surfaces

#### **PRODUCT BENEFITS**

- ▼ Countless Color Options
- Superior Stain Resistance
- **V** UV-Stable Pure Acrylic Concrete Sealers
- Water Based and Solvent Tint Bases
- Protects Against Salt and Ice Damage

#### **POOL DECKS**

Colour Seal is a great solution for hot feeling pool decks. It is used to seal and protect overlay coatings or bare concrete to lower the surface temperature by utilizing a lighter and more reflective coating. With the addition of D-Grip additive a low slip surface can also be created.

#### DRIVEWAYS

Driveways or concrete in general become stained and discolored resulting in a very unattractive surface. Colour Seal is used in conjunction with cleaners to dress up and drastically improve the first impression of a home. Available in over 1200 decorative colors.

#### COMMERCIAL

Commercial concrete is often stained and discolored by traffic, spills, and other abuse. Concrete is a sponge and soaks in all kinds of stains. Colour Seal can prevent staining by not allowing contaminants to soak into the concrete, sealing it with a color that complements the surrounding architecture.

## **Concrete Sealers**

#### **UV-STABLE CONCRETE SEALERS**

Durável clear concrete sealers for natural and colored concrete, stamped concrete, and decorative overlay. Superior protection from UV rays, deicing products, and staining. Durável concrete sealers are formulated using the latest technology in pure acrylics with advanced adhesion promotors for extended service life. Protect concrete driveways, walkways, patios, porches, balconies, and other surfaces from common stains and chemical attack.

#### **CONCRETE PROTECTION**

- Residential and Commercial Colored Concrete
- ✓ Stamped Concrete
- Concrete Texture Overlay
- New Work and Existing Concrete Re-Seal
- Natural Concrete

#### **PRODUCT BENEFITS**

- VV-Stable Pure Acrylic Concrete Sealers
- Superior Stain Resistance
- Adhesion Promotors for Enhanced Bond
- Standard and Low VOC Options
- Extended Service Life

#### DV-20™ AND DV-30™

Durável DV-20 and DV-30 High Gloss are clear concrete sealers that provide excellent color enhancement with a crystal clear finish. The pure acrylic formulas penetrate deep into the surface of concrete and overlay for extended service life and protection from salts, rain, acidic stains, and other damaging elements. Also available in 400 g/L VOC formula.

#### DV-WBTM

Durável DV-WB is a 29% Solids Water Based concrete sealer that provides a superior crystal clear gloss finish and some color enhancement. The advanced acrylic formula penetrates deep into the surface of concrete and overlay for extended service life and protection from salts, rain, acidic stains, and other damaging elements.

#### FIRST DAY PLUS™

Durável First Day Plus meets ASTM 1315 Cure and Seal specifications for use on freshly placed concrete flatwork and stamped concrete. Pure acrylics provide UV-stable extended protection from weather damage, salts, and acidic stains. First Day Plus slows the hydration of new concrete to minimize cracking and checking.

## **Product Lineup**

## **Just Add Water Bag Mix**

Next Generation Overlays and Repair Mortars

TRO

**TSO** 

SOM

TCO

TRM

Heavy duty traffic-rated system. Restore texture to worn concrete. Repair spalls and salt damage. Broom Finish and more.

Trowel or spray system for decorative textures. Pool decks, driveways, sidewalks, patios. Turn old into beautiful. Transform plain concrete into stamped and carved textures. Vehicle rated, freeze-thaw resistant. Contractor friendly.

Thin microtopping with high compressive strength, durability, adhesion, flexibility and ease of use.

Thick repair mortar to fill defects, build ramps, and correct slope. Trowels and screeds easily.

## IN-FLUENCE

#### WATER-BASED SEMI-TRANSPARENT CONCRETE STAINS

#### **CLEAR SEALERS**

#### **DV-20TM**

20% solids solvent acrylic concrete sealer. Crystal clear finish. Long service life.

#### **DV-30™**

30% solids solvent acrylic high gloss concrete sealer. Superior protection.

#### DV-WBTM

Water-base concrete sealer with extreme chemical resistance.

#### First Day Plus™

Cure and Seal with longer lasting pure acrylic that meets ASTM 1315.

#### PIGMENTED SEALERS

#### Colour Seal™

Solvent acrylic solid color, excellent hide, rolls evenly. Long lasting color.

#### InstaTint™

UV-stable pigments that produce concrete sealer in over 1200 colors to meet the demands of any project.

#### Colour Seal WB™

Water base acrylic solid color, extreme durability. Low odor.

#### **CLEAN AND PREPARATION PRODUCTS**

#### Restore-A-Seal™

Emulsify old solvent sealer, remove blushing. Works faster than Xylene.

#### **ECP**<sup>TM</sup>

Clean, degrease and profile in a single step. Environmentally safe.

#### Concrete Eraser™

Safely remove concrete splash, clean tools and equipment.

#### **LBA**<sup>TM</sup>

Liquid bonding agent for use with SOM stamp overlay and TRM repair mortar.

#### **OTHER PRODUCTS**

#### **D**-Grip™

Non-slip additive to eliminate slip-fall dangers. Available in two sizes.

#### **Solvents**

Pure solvents. Acetone, Isopropyl Alcohol, and Xylene.

#### Liquid Release™

Superior dwell time. For use on concrete and overlay.

#### **Overlay Color Packs**

Integrally color overlay bag mixes for even coloration throughout the entire project.
