

# TOP S/4HANA DATA MIGRATION CHALLENGES

## INTEGRATE

Seamlessly integrate sources like SAP S/4HANA with multiple different data sources

## INTERFACE

Provide uninterrupted access to key data feeds

## MAINTAIN

Maintain consistent, reliable access to data for reporting and invoicing

## REDUCE

Further reduce costs by modernizing without introducing new virtual machines (VMs)

## SECURE

Secure your PII (Personal Identifiable Information) : GDPR CCPA, ITAR

## TRUTH

Single Source of truth for all data

## PERFORM

Perform the modernization within extremely short timeframes, therefore without introducing new on-premises environments, which would cause project delays

Talk with us to find out how data virtualization can reduce these challenges.

Faster. Easier. Secure.
