Presentation:

Dave/K6WDE gave an awesome presentation on Winter Field Day 2022. He was in Arizona, working on 100 watts/battery power. If you would like to view his presentation, he has posted all of his slides on his QRZ page. At the end of the presentation, Dave let us know that he and Sandy are making some major changes in their lives. They are selling both of their home and moving to Utah. Tis will happen by midsummer. Many folks made comments on their leaving and how we will miss them. They have been simply great cub members and super friends. But he said they have room for visitors, so stop on by!

Tracy closed the meeting with reminders about upcoming events, and Chet thanked us all for attending.

The meeting closed at 20:15.
