

International Biometrics Association (IBA) User Conference Overview

August 25-28
Kimpton Shane Hotel
Atlanta, GA

OVERVIEW

The International Biometrics Association (IBA) User Conference delivers high-quality content packed with inspirational keynotes, targeted educational sessions, informative training breakouts, in-depth, hands-on workshops, and an innovative biometric solutions showcase.

In partnership with the NEC Corporation of America, IBA strives to provide its members with educational and networking opportunities while facilitating an information exchange forum that would lead to the development of new biometric technologies, helping create a safer environment for its members and the public.
