TIME	General Session	Presenter	Location	Location
8:00 am - 1:00 pm	Conference Registration	All Attendees	Dunsmore	
8:00 am - 9:00 am	Breakfast	All Attendees	Glendale 1-4	
9:00 am - 9:45 am	Regulating Public Safety: AI, Privacy & Broader Policies Impacting Law Enforcement	Brent Bombach VP, Head of Government Relations Arielle Thomas Manager, Government Relations NEC Corporation of America	Brand Ballroom (Glendale 5-8)	From AI governance to data privacy, government policies are shifting the regulatory and operational landscape for law enforcement. Federal, state, and local policymakers are introducing frameworks that could shape the use of biometric technologies, surveillance tools, and broader public safety practices. This session will explore the most critical policy trends—including AI oversight, privacy protections, and emerging regulatory discussions—providing actionable insights for agencies navigating this changing environment while protecting public safety.
9:45 am - 10:15 am	Efficient and Effective: Searching Databases Utilizing the Auto Feature in MBIS	Raymond Lauzon Latent Print Examiner, Atlanta PD	Brand Ballroom (Glendale 5-8)	The City of Atlanta adopted the NEC MBIS in January 2024. Early use of the NEC MBIS demonstrated measurable benefits, including greater time savings and improved consistency across casework activities. Among the features evaluated, the Auto Search function proved to be the most meaningful improvement for the City of Atlanta, enabling faster retrieval of case information and reducing errors linked to manual searches. This session will share highlights and lessons learned.
10:15 am - 10:45 am	Break	Break	Break	
10:45 am - 11:15 am	Elevate and Accelerate Investigations with a Powerful OSINT Partner	Pat Butler EVP, Strategic Engagement Babel Street	Brand Ballroom (Glendale 5-8)	Babel Street's advanced, AI-powered technology delivers a powerful, all-in-one platform for modern investigative work. By combining multi-source data collection, cutting-edge entity resolution, advanced analytics, and collaborative tools, it empowers law enforcement and national security-organizations to make smarter, faster decisions. Whether you're an investigator, analyst, manager, or executive, Pat Butler, EVP, Strategic Engagement, will show how Babel Street solutions provide the intelligence needed to succeed in today's complex information landscape. These solutions open new avenues for investigations while reducing the time to clear cases.
