

AFIS Internet, Inc.

AFIS Internet Biometric Identification Award Program

At the 2016 AFIS Internet Conference, AFIS Internet, Inc. awarded two law enforcement agencies with awards for “Hits of the Year” while using NEC of America Biometric Systems. The winners were chosen by the AFIS Internet, Inc. Board. The focus of this award program is to showcase the power of NEC of America Biometric Systems. From Livescan, Facial Recognition, Latent & Palm/Finger Print solutions to the future wave of Biometrics – Iris and DNA identifying; AFIS Internet, Inc. and NEC of America Biometric Systems have partnered up with the Public Safety community to provide a voice for the victims of crimes.

AFIS Internet, Inc. and NEC of America Biometric Systems will be holding the 3rd Annual Biometric Hit of the Year award at the 2018 Annual Conference held in Reston, Virginia. Submission criteria include positive identification and arrest based on the specific discipline found under NEC of America Biometric System’s wide casting net of Public Safety solutions. A “closed case” and “conviction” aren’t necessary to be nominated; but will be taken into consideration when voted on by the AFIS Internet, Inc. board. The focus here, again, is to showcase exceptional biometric hits while using NEC of America Biometric Systems.

Winners will be chosen by the AFIS Internet, Inc. Board. The individual responsible for the identification, will receive recognition at the annual conference in August 2018 from AFIS Internet, Inc. and NEC of America Biometric Systems, a plaque, free membership for 2019 and the award will be recognized and posted in the AFIS Internet, Inc. newsletter and internet site.

To submit a nomination for the Biometric Identification Award, please submit a brief summary of the case to both Kathy Hill & Ed Zieverink (kathy.hill@gbi.ga.gov & ezieverink@sheriff.hamilton-co.org) by no later than **July 27, 2018**.
