SAINT DEKKERA RESERVE SOUR: TROPICALE

Our Saint Dekkera Reserve Sour Ale series are naturally soured by spontaneous/wild secondary fermentation and aging in oak barrels with microflora wonderfully unique to our downstate Illinois terroir. We embrace the individual, wild character of each barrel to produce beers with a wide array of acidity, sourness and unadulterated funkiness. This special release was aged in a blend of French oak white & red wine foudres and guava, pineapple and mango.
