Product Features
Non Marking High Quality Thermal Plastic Rubber / Durometer 87

**** These are just an example, you can use any type of screw on or self-adhesive
Rubber feet from your local hardware store**

** Check the type of extrusion your current printer uses. For the [Tevo Tarantula](#), they used T-Slot aluminum, so all of the wheel mounts are measured and won't adjust in enough to work with V-Slot extrusions.
 I purchase all of my T-Slot from <https://us.misumi-ec.com>, and V-Slot from <http://Openbuildspartstore.com>
