Course Description:

Explore the next level of firearms training at SIG SAUER, where the globally celebrated “SIG (Simple is Good)” principles, renowned for their exceptional simplicity, unconventional methodology, and remarkable success, are highlighted. The Advanced Instructor Course was meticulously crafted as an Instructor Development course to elevate the effectiveness of both your program and instructors. Drawing from over 30 years of expertise in competitive, law enforcement, and military special programs training, this course provides a comprehensive and pragmatic approach for today’s Law Enforcement Officer. The Advanced Rifle Instructor course is your gateway to refining instructional techniques and curriculum design. Embracing a ‘Coaching’ perspective over traditional ‘Instruction,’ instructors will gain valuable insights to enhance overall performance.

EXPERIENCE REQUIREMENTS

This course is an advanced level course. Attendees must be a previously certified firearms instructor through the SIG SAUER Academy or certified through another nationally recognized instructor development program (5 day minimum).

Students failing to meet and maintain our safety requirements and/or who cannot meet and immediately demonstrate the minimum skills required for the specific class may be removed from training. Please ensure you have read through the class description and fully understand our prerequisites before registering.

COURSE OUTLINE

- Discover the SIG SAUER Academy Principles of Firearms Training.
- Understand and apply Adult Learning Theory to tailor instructional methods that resonate with diverse learning styles.
- Identify and employ effective techniques for proper demonstration in firearms training.
- Differentiate between performance-based and outcome-based training strategies for enhanced skill development.
- Comprehend the importance of visual input in firearms training and teach techniques that facilitate success.
- Recognize various adult learning styles and implement tailored approaches to enhance overall performance.
- Break down conventional training barriers by adopting innovative and proven methodologies.
- Acquire proficiency in foundational drills and skills essential for consistent success in firearms training.
- Develop the ability to establish and utilize metrics to assess and enhance the success of training programs.
- Incorporate video analysis techniques to identify areas for improvement and enhance overall performance.
