

TACTICAL ROPE ACCESS WORKSHOP

CANADIAN TACTICAL CONFERENCE BY OTAB

MAY 18 & 19, 2022

WORKSHOP OVERVIEW

This course is being taught through a network of Tactical Rope experts selected from Windsor, OPP, Barrie, and Toronto. The instructors have tweaked their material and are welcoming all skill levels from basic to advanced. Course descriptions below.

Site #1 Grain Terminals

Collingwood Terminals
Engineering Condition Assessment

1 Heritage Drive
Collingwood, Ontario

Students will rappel using various devices including Petzl Rig and ATC... students are welcome to bring their own service devices.

Focus will be on rappelling from grain terminal roof (approx. 150'). Low anchor and flat roof forcing students to perform edge transition via "spider crawl". More experienced students will be challenged with advanced rescue scenarios.

Site #2 Brand New Apartment building/Condo

Students will use various anchor points to go from roof top to balcony, as well as traverse from balcony to balcony. Focus will be on rigging in apartment setting and balcony denials as well as balcony entries.

Two-day workshop includes:

- ✓ Popular descent control devices and the pros and cons of each as it pertains to Tactical Rope Access.
- ✓ Rescue operations for persons in crisis, self rescue as well as partner rescue.
- ✓ Critical incident debriefs as it relates to Tactical Rope Access.
