How Our System Works

The information centers are available in a variety of shapes and sizes to facilitate the space you have where your visitors will gain the most benefit from the information. We ensure that the display compliments your décor in every way and suits your facility's needs.

We measure, design, and build the displays to your exact specifications. We then notify local businesses of the opportunity to reach to your visitors. We ensure that the board is kept well maintained, clean, and provide you with all the supplies needed to keep the board up to date.

We offer this at **NO COST** to you for the right to place local businesses on each side of the information. You have complete approval of the businesses and we do not advertise any business that is in competition with you.

Design Choices

The center Section of the unit will be composed of your choice of display style:

- Erasable Calendar for scheduling monthly tournaments, sales, activities, community events, men's and women's activities, etc.
- Plain dry erase board for writing your own message, TV or monitor
- Felt or vinyl covered cork boards for displaying information
- Plug-in letter section for a profession message display
- Many stains to choose from and aluminum extrusion colors

Our information displays can be glass enclosed & locked so YOU control the messages your visitors are getting.

About Us
