Water Quality – 15 Minutes – Frank

- See attached Water Quality report
- CSLAP has been completed this year
- report due in spring of 2022
- water level was on average high, lake just turned over so green color is normal right now
- no word from DEC on plan for CSLAP
- our continued work with high school works for filling in gaps with CSLAP
- knotweed map has been identified and eradication plan will go on in spring or summer of 2022
- need some folks to volunteer for golf tournament 5-6 to formally make a committee to ensure all gets done July 30, 2022
- high concentrations of zebra mussels this year seems to be 3 year cycles
- not mentioned in WQ report is floating wetlands which are floating mats of plant matter/mesh and these suck up nutrients from the water and get rid of water contaminants
 - some easy platforms to make these floating wetlands you want them small enough to be able to pull at the end of the season
 - Frank and Bonnie to produce 1 or 2 to see how it works - they are gaining traction in NY as a way to mitigate nutrients
 - Planting is a week from yesterday Fri 10/15 at 9 am - all are welcome
 - Flares - a few folks have reached out to Frank and Bob about flares moving forward

chemical vs LED flares SLA gets money paid back either way. LED flares are better environmentally overall from the perspective of the lake

LED flares cost \$15/pair

Sale of all flares at Geneseo Wegmans' comes to CLEAN - will be receiving \$1000 check roughly for flare proceeds, Wegmans also donating an extra \$1000 due to them seeing environmental importance of this project

Tract directors to poll residents and get results to Bob Martin by December 1st for flares vs. LEDs

--Discussion about adding Heron Cove to another Tract

Heron Cove has no tract director, Rich took care of things but we don't know what Rich had on Heron Cove. Heron Cove has 6 members maybe add Heron Cove to Traber North or Silver Cove, try to add to another tract since there are only 6 homes

--Approval of Jane Eliaz as Tract Director of Davis Tract
