

KJ6000C

20 – 6000MHz

Full Band Jamming System

The KJ6000C is a high-performance, portable solution designed for military applications. It covers a broad frequency range of 20-6000MHz with no frequency gaps. The system is equipped with 16 internal, 4 external omni-directional antennas ensuring effective disruption of communications. The system is enclosed in a robust, durable, IP65 – rated enclosure with wheels for mobility and requires an external battery for operation.

Note: The system is fully configurable to customer specifications.

Feature	Specification
Frequency Coverage	20MHz – 6000MHz
Bandwidth per Band	300MHz
External Power Supply	14-30V DC
Output power of each Module	Up to 50Watts
Antenna Type	Omni-Directional Antennas
Cooling Method	Internal Fans for Heat Exchange
Ingress Protection (IP Rating)	IP65
