

# Terminator 2.0

## World's First Carbon Fibre Drone Jamming Gun

The Terminator 2.0 is a portable multiband jamming system designed to disable commercial and domestic drones and UAVS. Its unique design is first of its kind; utilizing a carbon fibre wave guide. The gun is light-weight and portable with weight less than 3Kg.

### Specifications

| Frequency Band       | Frequency                         | Output Power |
|----------------------|-----------------------------------|--------------|
| 1.5GHz               | 1563-1610MHz                      | 10W          |
| 2.4GHz               | 2450-2500MHz                      | 10W          |
| 5.8GHz               | 5745-5850MHz                      | 5W           |
| <b>Antennas</b>      | Directional (Built-in Wave Guide) |              |
| <b>Jamming Ratio</b> | Minimum 1:1                       |              |
| <b>Battery</b>       | External Battery 20V 2A           |              |
| <b>IP Rating</b>     | IP65                              |              |
| <b>Cooling</b>       | Air Cooling                       |              |
