FORMATIVE ASSESSMENTS

Istation

Powerful Data for Reading, Math, and Spanish Literacy

Build foundational skills, boost achievement, and predict student success with Istation's formative assessments and personalized learning profiles. Empower schools to increase engagement and improve outcomes for all learners.

Powerful Data

Istation's blended learning approach includes the nationally normed, research-based Istation's Indicators of Progress (ISIP™) assessments for reading, math, and Spanish literacy. These computer-adaptive universal screening programs are built on the science of reading and proven-to-work methods from the National Research Council, the National Reading Panel, and others.
Aligned to individual state standards and Common Core State Standards, Istation's assessments, instruction, and teacher- directed lessons also support English-language instruction and special education students.

Istation's actionable data helps teachers:

- Implement multi-tiered systems of support strategies
- Prioritize critical interventions
- Identify students for small-group instruction
- Select from targeted teacher-led lessons
- Compile student strengths and weaknesses
- Document intervention
- Measure progress towards biliteracy

New student assessment theme options

Computer-adaptive screeners and progress monitoring for early and advanced learners

Improved goal tracking and rewards to engage students in their progress

Personalized Data Profiles

Priority Report

This instructional report identifies which students will benefit from further intervention and provides links to teacher-led lessons and supplemental materials.
Executive Summary

This assessment report for school and district administrators summarizes current campus results by combining the ISIP Summary Report with the ISIP Skill Growth by Tier Report.
Summary Report

This detail helps teachers determine which skills need to be retaught by providing a classroom overview of how many students are performing within each instructional level according to skill.
Biliteracy Report

Educators can select "Include All Reading Products" to generate a side-by-side comparison of results for students using Istation Reading and Istation Español.

Student Summary Handouts

This report summarizes each student's performance, including usage details, Lexile® measures, ISIP percentile rank, and the latest Priority Report alerts.

Usage Trend Report

Tracking student usage across the school year, this monthly report provides a level-by-level comparison of average minutes of instruction.

Levels	Intervention Tiers	RTI+
Level 1 — At or below the 20th percentile	Tier 3 — At or below the 20th percentile	Tier 3 — At or below the 25th percentile
Level 2 — 21st - 40th percentile	Tier 2 — 21st - 40th percentile	Tier 2 — 26th - 49th percentile
Level 3 — 41st - 60th percentile	Tier 1 — Above the 40th percentile	Tier 1 — Above the 49th percentile
Level 4 — 61st - 80th percentile		
Level 5 — Above the 80th percentile		

Istation's Multi-tiered Systems of Support

From RTI to MTSS, Istation's formative assessments and teacher-friendly data support intervention and blended learning with three distinct performance scales built to define achievement goals based on any school's strategic needs.

All three performance scales use nationally normed Istation's Indicators of Progress (ISIPTM) to determine whether students are on target to meet end-of-year grade-level expectations. Schools can change scales at any time during the academic year.

> " One of the beauties of Istation is that it's adaptive. So my test won't look like yours and won't look like the student sitting next to you. Everybody is basically getting what they need. "

Director of Federal Programs and Testing - Hoover, AL

WATCH
Istation Helps Students Grow

Istation's assessments provide teachers and students with the information they need to achieve powerful growth.

Istation's web-based educational technology helps schools implement intervention strategies, blended learning initiatives, formative assessments, dual language and biliteracy programs, and more.

Innovative Approaches

Working together, Istation's formative assessments, student data, instructional resources, and dynamic support deliver data that drives intervention and instruction with:

- Assessments of skills that predict student success
- Automatic screeners and progress monitoring
- Precise measurements
- Seamless placement
- On-demand assessments
- Assessment modeling for young learners

What's Included?

Istation's formative assessments come with unlimited access, comprehensive support, and inclusive resources, including:

- Universal screeners, progress monitoring, and benchmarks
- Monthly assessments and unlimited on- demand progress monitoring
- Real-time reporting with a robust collection of ready-made reports
- Ongoing support throughout the license period
- Single sign-on capability
- Printable teacher-directed lessons (TDLs) to support intervention and instruction
- All software updates and upgrades throughout the license period
- Online professional development options (videos, manuals, and more)
- Vendor-provided data hosting
- Available on the web and for PCs, Macs, iPads, Chromebooks, and Android devices
- Support on-site, online, by phone and by email

Reading   **Math**   **Spanish**

Introducing Power Path

- Students motivated to progress with customizable themes and avatars
- Simplified menu and navigation
- Students track their progress with goals and the data dashboard
- And **more!**

Reading

ISIP Early Reading
Pre-K – 3rd Grade

Early learners are assessed in less than 30 minutes with an engaging computer-adaptive assessment that features a game show called *Show What You Know!* At the end of the assessment, students see an animated graph of their progress.

Skills assessed:
- Listening Comprehension
- Letter Knowledge
- Vocabulary
- Phonemic Awareness
- Alphabetic Decoding
- Spelling/Word Analysis
- Comprehension
- Text Fluency
- Oral Reading Fluency

ISIP Oral Reading Fluency
K – 5th Grade

Students enter the Istation Recording Studios to demonstrate their reading accuracy through the oral reading of grade-leveled passages. Students may record passages in English or Spanish and recordings help teachers measure fluency, accuracy, and more.

Tracked fluency measures include:
- Words correct per minute
- Accuracy
- Errors
- Self-corrections

ISIP Advanced Reading
4th – 8th Grade

Advanced readers are assessed in less than 30 minutes with an engaging computer-adaptive assessment that features an interactive space game called Right Stuff University. Students choose a trainer to guide them and then begin their assessment missions.
Skills assessed:
- Vocabulary
- Spelling/Word Analysis
- Comprehension
- Text Fluency

Lectura

ISIP Lectura | PreK – 3
Pre-K – 3rd Grade

The computer-adaptive assessment features a game show called *¡A ver cuánto sabes!* (Show What You Know). At the end of each assessment, students see an animated graph of their progress.
Skills assessed:
- Listening Comprehension
- Phonological Awareness
- Writing Conventions
- Vocabulary
- Reading Comprehension
- Spelling
- Text Fluency

Fluidez De Lectura Oral
K – 5th Grade

Students record themselves reading authentic, grade-leveled passages, which teachers can score at their convenience using the manual scoring interface.

Tracked fluency measures include:
- Words correct per minute
- Accuracy
- Errors
- Self-corrections

ISIP Lectura | 4 – 5
4th – 5th Grade

The computer-adaptive assessment features a space game called *Academia Lecto-cibernética*. Students are guided through missions as their skills are assessed.

Skills assessed:
- Vocabulary
- Reading Comprehension
- Spelling
- Text Fluency

Math

ISIP Early Math
Pre-K – 2nd Grade

Early learners are assessed in approximately 30 minutes with engaging computer-adaptive assessments that feature shopping in a grocery store called Mario's Market. Assessment delivery is presented in a developmentally appropriate format with respect to students' reading skills, fine/gross motor skills, and hand-eye coordination.

Domains assessed:
- Number Sense
- Computations and Algebraic Thinking
- Geometry
- Measurement
- Data Analysis
- Probability*
- Personal Financial Literacy*

ISIP Math
3rd – 8th Grade

Students are assessed in approximately 30 minutes with an engaging computer-adaptive assessment that introduces students to the world of Secret Equation Man. Students demonstrate their mathematical knowledge throughout this assessment to provide educators with critical insights into their learners' unique needs and abilities.

Domains assessed:
- Number Sense
- Computations and Algebraic Thinking
- Geometry
- Measurement
- Data Analysis
- Probability*
- Personal Financial Literacy*

* Availability varies by state
