

Tabit Order

Online ordering system

**Customer-facing
ordering platform for
take-out and delivery
that allows you to
connect with customers
anytime, anywhere**

Simple Online Ordering Process

- Communicate with customers directly, giving them the ability to view the menu, place an order, and pay from their phone or computer

Extended Sales Opportunities

- Entice customers with promotions and up-sells
- Boost sales revenue without increasing labor costs

Efficient Menu Management

- User-friendly management interface
- Manage menus, items, and pricing from one system, fully synced with Tabit PAD, maintaining consistency across platforms
- Publish specific menu offerings, 86 or limit items in real-time, and manage distribution areas and delivery times

Customizable & Easily Accessible

- Easily branded UI tailored to your business
- Promote and link from your website and social media channels
