

# Membership Form

## WWC Overview

Women Who Charge was formed to advocate and support global sustainability efforts by encouraging the growth of the electric vehicle industry through community equity solutions and to be intentional about the promotion of women innovators the electric vehicle and charging industry.

## Support Us

By joining Women Who Charge as a member you will be supporting our daily efforts to increase the overall demand for electric vehicles, improve access to electric vehicle charging stations and be part of creating a platform for the innovative women in the industry to be celebrated.

We believe greenhouse gas emissions can be impacted with our projects. Your dues will go towards funding those programs and ensuring information about equitable approaches to electric vehicles is aggressively shared. Please join us as a member with an annual membership. We have the following options for individual and business memberships.
