Does Casebook MBA provide solutions? And if so what are the best solutions boxes? I would like to receive notifications of this issue updates made by E -Past. 1) The list here is huge (14 things books, scroll to paragraph 12): 2) Most teachers created (including intelligent education) OK good. Check them here! !! , industry review, main concepts and cases are not bad (also contains the recommended frames). Hard - a great industry review, cases not only well but also really clear and easy to understand. beyogope Colombia - Works great in later stages when we try to focus on several areas. In their content (and in the head of each case), they illustrate not only industry and type of case, but also solid (BCG, Bain, etc.), proven concepts (Breakeven, Brainstorming, etc.) and difficulty in realizing their mathematical structure and creativity or this answer was Useful? Anonymous, frankly, I'm not sure if you are looking for the right way to prepare for the interview. Good solutions to some extent help get a comprehensive overview of the development of things over time. However, the interview is an interactive situation and you should adapt to new information based on your questions and information received from the person who conducts the interview. Knowledge of the solution does not really help to prepare - forcing candidates to think as a robot, if scenarios, instead of thinking as a consultant and conducting good conversations with the person who conducts the interview. Therefore, be careful not to make mistakes in preparing for interviews with such written solutions in the form of an occasional study. Not what you get in accordance with the contract. I hope this helps. If so, be so nice and give your thumbs using the green voting button below! RobertoB "Do MBA kits offer solutions? And if so, what are the best case kits with solutions? For cases, scroll to Article 12); Interviews - Cases/2) Most instructors cases developed (including intellectual education) are very good Discover everything here Companies, industry overview, key concepts and cases are quite good (they also have suggested frameworks) rigorous - great overview clear and easy to follow Columbia - Great for final steps, when you try, focus on specific areas Industry and case type as well as company (BCG, Blogs, etc.), concepts tested (break even, brainstorming, etc.) and math challenges - structure and creativity helpful?Hi Anonymous , to be honest, I don't know if you are looking for the right way to prepare for an interview. Good solutions go some way to building a general understanding of development cases over time. But an interactive situation is an interactive situation and you have to adapt to new information depending on your questions and the information you receive from the interviewer. If you know the solution, preparation doesn't really help - in fact it encourages candidates to think more like a robot in Si -Alor scenarios rather than developing their thinking as a consultant and having a good discussion with the interviewer. Paul. So make sure you don't confuse interview preparation with written case decisions... and that's not what gets you an offer. mupanoziurevu I hope this helps, please be so kind and flood her with the positive green button below! robeDid you get this answer perfect? Dear, I would like to start preparing a case using the houses at Cosentin, Crack The Case and London Business School Casabook to understand the structure of the interview and what it is. So I would advise you to start solving cases in the bookstore and find a practitioner equal "out there". If you want to significantly speed up and significantly improve your preparation, it is better to take a professional trainer. tariloga Better, did this answer help you?
