

About Us

Thank you for your interest in NYC Tree Pit Services. We are an independent 100% female-owned and managed social enterprise based in Brooklyn NY, registered in NY State and licensed for home improvement contracting in New York City.

We are deeply committed to delivering the many benefits of street trees and their surrounding beds. City trees clean our air, cool our streets and homes, support effective water management and are a source of pride for our residents. While these benefits are important to all New Yorkers, they can be life-saving in underserved communities.

Our Climate Commitment

We believe that climate change is the biggest threat to human sustainability and feel strongly that businesses have an obligation to combat it. That is why we:

- Do not use chemical fertilizers, chemically treated lumber or commercial pesticides
- Source our organics from local farms and nurseries whenever possible
- Recycle all of our bulk durable plastics, steel products and concrete debris
- Minimize carbon production and water use in our business operations
- Work with suppliers and partners who share our mission

Above all we donate 10% of our net income to causes which work to combat climate change and protect our planet's natural resources.

Our Quality Standards

We believe in the highest standards in everything we do. That is why we:

- Ensure that the quality of work meets industry best practices and has received approvals from all applicable regulatory agencies
- Pay our staff in excess of a living wage and protect them with paid family leave, workers compensation, disability and unemployment benefits.
- Protect our clients with robust safety practices and excess insurance coverage.
- Stand by the quality of products and work quality through our guarantee programs.

Please ask other bidders about their standards.

When you choose NYC Tree Pit Services, you are doing your part to create a healthier New York City and a greener planet.
