

Scuba Travel TOUR

CABO PULMO - DIC 2026

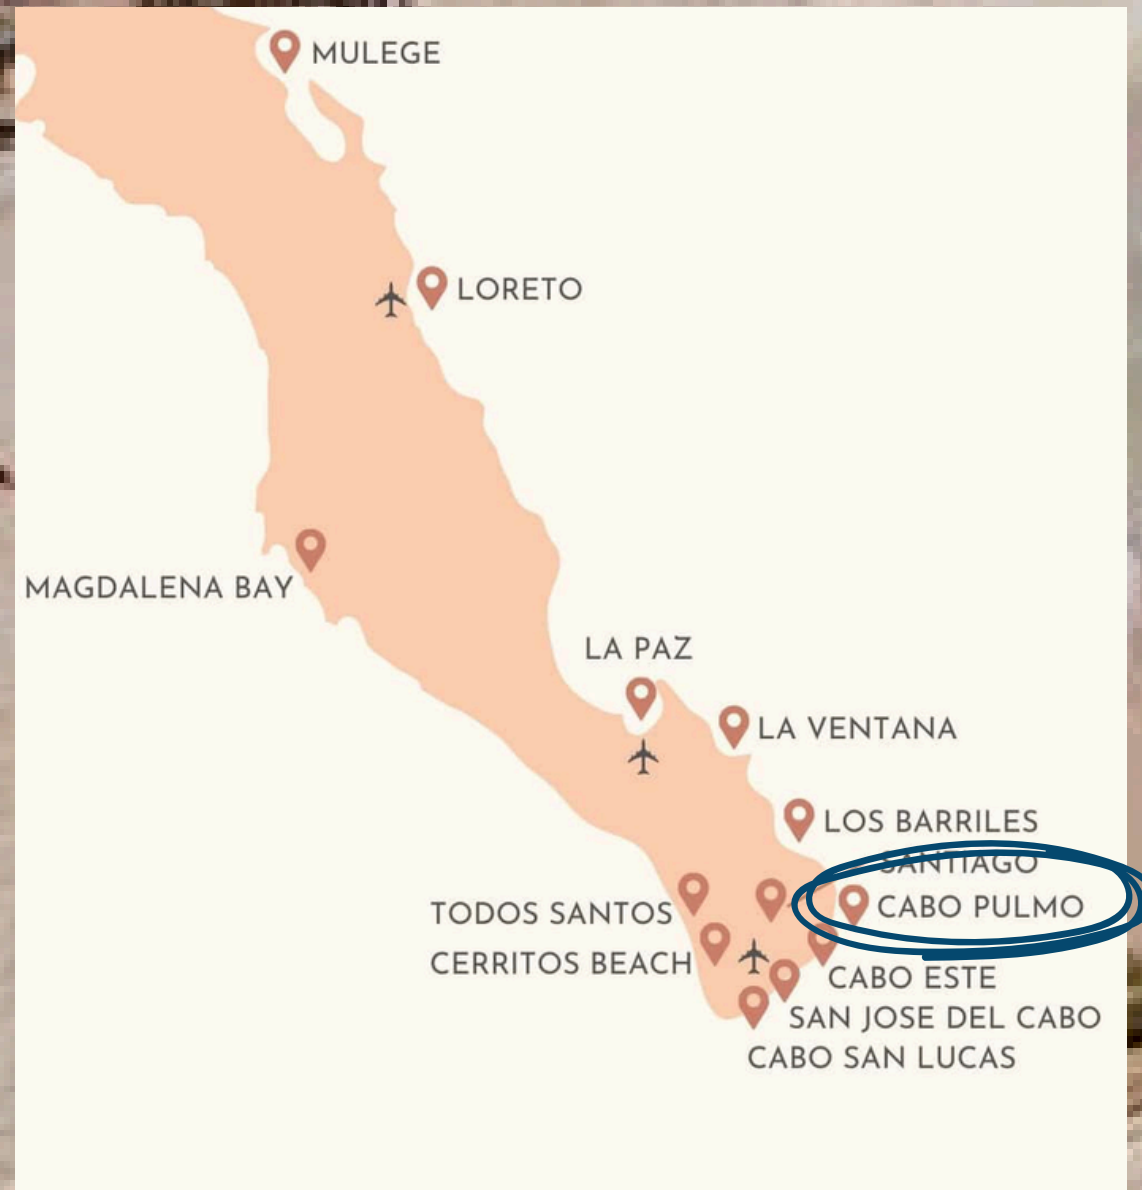

About CABO

PULMO

A World-Class Conservation Success Story!

From a small fishing village to the most successful marine restoration on the planet. In 1995, the local community banned fishing completely—today, marine biomass has surged by over 400%. It is home to the only living hard-coral reef in the Sea of Cortez and is a designated UNESCO World Heritage Site.

Stunning

SEA OF CORTEZ

The Jack Tornado: The most iconic marine spectacle in the Sea of Cortez.

Bull Sharks & Megafauna:
Action-packed dives
surrounded by giant
snappers, rays, and sea lions

Pristine Reef: A protected
sanctuary boasting the
highest density of marine life
in the region
