To whom it may concern,

I have known Cleber Costa in a construction related capacity for more than 20 years. Over that time I have seen him evolve from a laborer/ carpentry apprentice to one of the finest hands on builders that I have encountered in my capacity as a construction supervisor in lower Fairfield county and Westchester over that time period. He is an expert at framing, installing windows and doors, and exterior trim, but where he excels is at high end interior finishes. He has framed and completely trimmed inside and out multimillion dollar projects for me and as the difficulty of a project rises he is my “go to” carpenter.

If you have any questions feel free to contact me at 203-522-9468 or email me at mryan@trbuilt.com.
