

Save Stonelake Landing!

**CALIFORNIA NORTHSTATE UNIVERSITY
WANTS TO DEMOLISH STONELAKE LANDING AND OUR
LOCAL SMALL BUSINESSES TO CREATE A MASSIVE
MEDICAL COMPLEX, INCLUDING A 13-STORY
LEVEL II TRAUMA CENTER WITH A HELIPAD.**

Elk Grove needs a hospital in a location that will serve the community responsibly, effectively and ethically.

**California Northstate University is NOT that hospital.
Stonelake Landing is NOT that place.**

If CNU's plans go through, our beautiful, quiet community will be irreparably damaged.

- Local small businesses destroyed
 - Increased noise from emergency vehicles and helicopters
 - Unsustainable traffic increases along all of Elk Grove Blvd.
 - Threats to the safety of nearby elementary schools
 - Detrimental and lasting impacts to our environment
 - Much longer "time-to-hospital" than other site options
 - A monstrosity of a building, more than 6x higher than the tallest homes in Elk Grove
-

**If CNU and city officials can do this in West Elk Grove,
they can do it anywhere.**

Don't let them get away with it!
