

Ball Holders hurt their team more than Ball Throwers

Don't shoot the quick 20 footer

Layup=80%

20 Footer=40%

Who has the best chance to win?

Accept responsibility...Don't blame others or conditions. Just simply say, "We just needed to play better."

A good player makes it tough for the other team to score.

A good player will do the things that go unnoticed. Example:

- A) Saves turnover
- B) Tips ball out to teammate instead of fouling over the back
- C) Defends turnover
- D) Breaks up a 2 on 1 on defense
- E) Comes <u>early</u> & stays <u>late</u>

Anticipate play

Are you available to the ball? (Turnover prevention)

Good players always pursue the ball

<u>Lay-ups</u> produce <u>free throw attempts</u> 3-pointers rarely get free throws
