NEW PRODUCT

MODEL 9160
AEROCLEAN 600EV

The new Aeroclean 600EV Negative Air Unit is energy efficient, light, compact, quiet, and variable speed. This small profile unit is great for commercial, industrial, and household use. The 600EV weighs only 32 lbs and utilizes low amperage, high volume centrifugal fan technology. Like all of our Aeroclean units, the filtration package is a 3-stage system including a 99.99% efficiency HEPA filter.

100% Made in the U.S.A from aircraft grade aluminum

***See the #9160 Specification Sheet for more detailed information**
