

COMPACT PORTABLE SHOWER Model 9106

The NEW Aerospace America Compact Portable Shower is light and easily carried up and down stairs or into confined spaces. This shower breaks down into a 31"x31"x9" suitcase style package for easy storage and transportation. Our showers are of the highest quality and strongest construction on the market. We use heavy duty telescoping poles, solid floors .080 thick, high-grade aluminum.

The shower comes assembled with mixing valve, shower wand, curtains and sock filter with connections for our 9115 or 9116 filtration pump. The floor drains into a 16-gallon basin with a 100-micron sock filter that can easily be changed. Our custom poles collapse down and are easily stored inside of the shower case.

100% Made in the U.S.A
