What is A Perfect Swing Foundation?

There are many youth that are prohibited from playing high impact school sports, like basketball and football, because of mild disabilities like sickle cell or artificial joints, just to name a couple. Playing sports is a huge morale booster and exercise benefit. A Perfect Swing Foundation looks to introduce these and other students to the game of golf as a low impact alternative sport. Playing golf will help boost their morale and get them moving. This will impact their overall health and wellness. Additionally, this will allow them to compete in school competitions, earn a college scholarship, as well as potentially play professionally one day. If you know someone that can benefit from our services, please contact us. Individual and business partnerships, sponsorships, and donations are needed and appreciated.

The mission of A Perfect Swing Foundation is to introduce golf as a low impact alternative for sports and exercise, by teaching the technique of the sport and arranging golf outings. The vision of A Perfect Swing Foundation is to see all individuals of all health conditions enjoy the game of golf and use it to enhance their lives.

What activities will take place during the A Perfect Swing Foundation event?

We have approximately 20 youth attending. We will pair each youth with an A Perfect Swing participant to play 9 holes of golf.
