Here is something no one else has done before! A true copycat original project!
This is the RUNTZ REMIX project!
With a Quad Sired breeding program!
What? WTF is quad sure you ask! Well

Let me explain the method to my madness! This is something I have been kicking around for a while and wanted to bring to life in cannabis! Using four , yes FOUR different reversals to pollinate this full line of Runtz crosses! My method of doing this is to bring all four sires traits to these selections to bring overall uniformity in a gene pool of Runtz crosses to further potential in future phenotype hunts!

So this is what I did.

Runtz reversal, platinum Runtz reversal

Cherry Runtz reversal, Pink Runtz reversal

All four of these reversals show very similar traits being heavy Runtz candy terps with gas .

Choosing these four sires for open pollination

To my selection is gonna create lots of pheno type variations on this round to further isolate

In the upcoming projects ! Renewing the Runtz gene pool and bringing life back to a world of over used cuts!

I'm sure this will cause a stir with the sticklers that have I clue what they are doing . As I continue to innovate and push the boundaries in the cannabis field I take pride in experimentation and innovation, not being scared to change the way we do things and the way we bring new genetics to the table!

Well enough is enough

Here is the Runtz Remix Fem Line!!!!

Runtz x Quad Sires

Platinum Runtz x Quad Sires

Pink Runtz x Quad Sires

Grape Runtz x Quad Sires

Cherry Runtz x Quad Sires

Plat nana Runtz x Quad Sires

Watermelon Runtz x Quad Sires

White Runtz x Quad Sires

What to expect????

Only time will tell!

There will be a special mix of all

Flavors called “Runtz Remix Remastered”

This will be made from a few branches of all varieties listed mixed all together

And packaged as “Runtz Remix Remastered “

Ofcourse you can still get each strain separately but as this is a true quad sire open pollination project I feel I must release this remastered seed pack for the true pheno hunters!

Again Who else does this????

This week have finished the reversal feminized line of the legendary M-39!
This is the most popular strain from BC known as beasters or BC BUD.It grows huge buds and finishes in 39 days a true production monster that is resistant to pests, PM and mold! Most all import cannabis was this stuff back in the day.

We wanted to take that fast flowering time and huge yields to a new level with crossing some of the best we have to increase that potency and make new hybrids that can do extremely well in production with fire 30% THC levels!

Do not sleep on these, this isn't your average beasters any more!

This is what we made!

Wedding cake x M39

Mac1 x M39

High octane x M39

(Mac1 s1)

There is gonna be some epic pheno's in this project! We even made more original Mac1 s1's ! As we are working on an s3 version and still finding different phenos in s2's showing recessive traits . So we figured we would s1 the original for better representation of the original! This is gonna be some epic gems in these batches! Don't miss out!

(** means it is our exclusive pheno of mother that we found from our hunting and has not been shared with anyone and can only be found from us)

— November 10

We are proud to introduce the new

HeadBanger OG feminized line

This is one of the best OG's in our line up

And we hit her reversed to many other top notch OG's to make some crazy Gas OG kush feminized seeds!

Here is the line up!

HeadBanger OG S1

High octane x head banger

Jet fuel x head banger

Triangle kush x head banger

Chem dawg x head banger
Tahoe OG x head banger
Abussive OG x head banger
Sfv OG x head banger
Josh D OG x head banger
818 head band x head banger

-- November 3rd

The long awaited Candy Rain feminized release!!!

We have selected our keeper pheno and reversed her to hit a bunch of elite clones with! Rest assured that these seeds are 100% germ rates like all our strains! Unlike the original release from cookie fam. This was very hard to select as most of the original seeds was mutations and non germination seeds. In the end we had 7 females and 8 males out of 40 seeds. Our keeper pheno shows a ton of purple colors as well as a fuelly and fruity flavor!

Candy Rain S1
Wedding cake x Candy Rain
London bridge x Candy Rain
Crumpets x Candy Rain
London pound cake x Candy Rain
Gelato 33 x Candy Rain
Mac1 x Candy Rain
Sundae driver x Candy Rain
Purple punch x Candy Rain
Sunset sherbet x Candy Rain

We are very excited to see what epic phenos come out of these batches!
Stay tuned for candy rain F2 regular line coming soon!

-October 27th

This week's releases are epic!

We took our ROAD KILL SKUNK

Which is a pure Afghan skunk that is nearly 100% Indica and the most stinkiest pheno we have ever found!

We reversed it to make a feminized Skunk Line! We crossed it to the following strains that we felt would bring epic crosses to the collection all feminized!

High Octane OG x Road Kill Skunk
Jet Fuel x Road Kill Skunk
TK91 x Road Kill Skunk
London Pound Cake x Road Kill Skunk
Mac1 x Road Kill Skunk
SFV OG x Road Kill Skunk
Tahoe OG x Road Kill Skunk
Wedding Cake x Road Kill Skunk
GG4 x Road Kill Skunk
Road kill skunk x Road Kill Skunk =RKS-S1

These are all feminized using the reversed female Road Kill Skunk from our collection! These have never been released and the first time we are offering our legendary Road Kill Skunk in S1 feminized form! Enjoy!

-- October 20th
