NEXT GENERATION TRANSPONDER

OVERVIEW

The Connected Logistics portal, website, and user interface are now operational.

The Connected Logistics Portal for NGTII is a unit management portal designed to give visibility and provisioning control over your NGTII units. You can perform the following actions:

- View and download a list of units
- View Airtime Begin Date, Airtime End Date, and Remaining Airtime for each unit
- Activate prior to magnet removal, Deactivate, and Reactivate units.

Note: Refer to the individual device guides for device activation, installation, and hardware details. This guide includes:

- Ordering procedures with the necessary information for users to order NGT II products.
- Contact information, such as POCs, phone numbers, Service Desk details, and addresses
- Price Matrix that lists the CLIN/SLIN prices, which will be updated within 5 days of any additions or deletions to the contract.

ORDERING PROCEDURES

All orders placed by the Buyer shall be subject to the following procedures: (1) A written purchase request must be submitted for approval by the Buyer's authorized representative. (2) Upon approval, a purchase order will be issued and emailed to Connected Logistics at servicedesk@logc2.com. (3) The Supplier shall deliver goods within the terms of the agreement (i.e., order of 80 units will be delivered within 30 days; order of 120 units will be delivered within 60 days). (4) The Buyer will verify the goods upon delivery and submit payment in accordance with the agreed payment terms.

CONTACT INFORMATION

Website <https://militaryitv.com>

Email servicedesk@logc2.com

Phone (855) 824-8005

The purpose of the Connected Logistics Service Desk is to support Buyers with Asset Tag ordering procedures, as well as help with configuration, operation, and issue resolution. Service Desk Agents operate remotely from multiple locations and deliver 24/7 customer support. Customers may reach *Agents* by phone or email. Urgent inquiries receive priority, with expedited response times, while routine, non-urgent requests are addressed in the order received. Support services include guidance on ordering processes, technical troubleshooting (such as resolving connectivity issues), shipment tracking, and assistance with warranty repairs or replacements.
